30. December 1866,

Sir, I have the honor to apply to you, for 100 copies
"in duplicate" of season license for the ensuing year 1867. -

It is necessary that I should have those documents in
as early as possible, - I intend to notice the fishermen in
my District, that they cannot continue fishing after the 31st
instant. - They will have to renew their license and
pay for the same in advance. - -

31. December 1866.

Sir, I have the honor to report for your information,
that on Friday last, the 28th instant, I brought Mr. James
Cantwell, Lessee of the fishery, Four mile creek township
of Niagara, before William Kirby Esq. J. P., "For that
he on or about the 13th day of July last, did throw over-
board a large stone into a fishery situated there, with the
intention of obstructing and damaging the same. - - -

Cantwell's language, at the time he committed the act,
was commented upon in severe terms by the Mag^{te}
who imposed a fine of \$8, and costs in all \$11.70. -

It appeared by the evidence that he wished
to damage the ground; his expression when he heaved
overboard the stone being - It will give the
d m - ed be - gg - rs, something to do, to get
that up. -

In a case of this sort, a small fine is of little
avail. - I would therefore recommend that the Hon:
Department will in addition seriously reprimand Mr.
James Cantwell, for such gross misconduct. - - -

Sir:

31. December 1866,

With reference to my report of the 21. ultimo, relating to David Tyson and two others, for fishing for White fish, with gill nets, on the 20th of Nov: last, in Lake Ontario, Township of Clinton. . . .

I have now the honor to report, that David Tyson is a young married man, 20 years old, is a volunteer in No: 6, Company, 19. Battalion, was on active service at Fort Erie, for six months last summer, got up the net I seized, which cost him \$15, besides knitting.

I saw this young man on Saturday last, who, in addition to the above, says, he sold a quantity of wheat he had, to get up the net, he is poor, and unable to pay a fine: - was ignorant of the law, hopes the Hon: department will deal leniently with him, by restoring to him his net, and he will never offend again.

Tyson acknowledges all, which is the best proof of his own innocence. . . .

From the good character which I received of him from his Captain, and many other respectable people, I have no hesitation in recommending strongly this man's case to you for consideration. . . .

Peter Culp and Nelson Culp - the other two persons referred to, in my former report, are also volunteers in the same company and Battalion, I have not seen either of them, but their Captain and others speak well of them. . . .

I would therefore recommend that I be allowed to take from them jointly the expense consequent to the seizure, give back their net; they having expressed contrition, and a willingness to pay license in future. -

I Have &c.

1st January 1867,

Sir,

I have the honor to send you herewith, cheque No. 72. for \$40 forty dollars. . . .

This money, you will please apply as follows: that is to say: -

- 1st. Mr. Chester Harris, for fishery at Port Erie, twenty dollars, to be applied thereon, for the year 1867, fifteen dollars; and for the year 1866, five dollars, = \$20. . .
2. Mr. Henry Sheppard, fifteen dollars, to be applied on acct of his fishery at Innesston, for the year 1867. -
3. Mr. Peter Price, five dollars, to be applied on his fishery at Long point, for the year 1866, as per licence herewith.

Sir, I have the honor to report for your information, that within the past two months, at Burlington beach; Mr. Thompson, the Light House Keeper, was robbed of \$200. Mr. Isaac Maldey of 400 yards herring gill net, Mr. Shubenulle of 274 yards of herring gill net. Benjamin Goulds of a number of geese and ducks, and a quantity of bed linen. . . .

And a man named Harmon, was drowned, while in a state of drunkenness, the liquor was got by him in an unlicensed house, on the beach kept by Dr. Gitch. . .

Fred. Corey, it is supposed set Thompson place and had it robbed, by a person named, John McCarthy, who was living in Corey's up to the morning of the robbery. . .

Corey, as a participator in the robbery, with his share - Thompson says, he lately bought a horse and buggy. -

My Malley, and my Shubert's nets, are also said to
be stolen by Sam. Corey, Lac. Corey, and Fred. Corey. -

17 Dec 1866.

I am obliged to lay the conduct of Mrs Joan Baldry, and her man, Burlington beach, before of fishing station No: 18, before you. - Having divided the fishing stations 18 and 19, equally between her and Jas: Waddell, including therein the different lots of land occupied by each, I leased the same to them for the current year, as it then appeared to their satisfaction. -

Everything went on well until the early part of last October, when Mrs Joan Baldry summoned up James Waddell, before J. Wesley Hopkins Esq: J. P. - for a malicious trespass, in going on to his own lot, a lot of land leased by me to Waddell in connection with his fishery; I done so by Mr White's direction given when he came (here) to the beach on the 22nd of November 1865. - - -

Mr Hopkins fined Waddell 2 and costs, Waddell appealed ag^t his decision. - The case came before the quarter sessions on Thursday last, and the appeal was quashed on a frivolous technicality, herewith this! -

After the case was before J. W. Hopkins Esq: J. P., on the 8th of October last, Mrs Joan Baldry assisted by her man Alex: McPherson, Magnus Bruce, a tailor - Hamilton, and Pat: Grumley, tore up Waddell's root house, and then threw the debris without the lot, and then fenced it up; Waddell has had possession of the lot for several years back, paid taxes thereon, and it was here he was burned out several years ago, as already reported by me. For Mrs Baldry's &c, high handed conduct she was fined by Mr James Cahill, P. M., before whom she was cited by James Waddell and she appealed, but the case being all the part week before the quarter sessions was

adjourned on Saturday evening until next Session

In submitting the above facts to your consideration, I am compelled to recommend - That after the termination of Mrs. Isaac Baldeys license which expires on the 31st day of December next, she be not entitled to a renewal of the same - she and her man being twice convicted for a contravention of the Fishers Act

And in the present instance she has acted in a most tyrannical way ag^t. James Weddell . .

Mr. Cahill, the Magistrate so highly disapproves of her conduct, and that of her man Alex McPherson in connection with this matter, that he told me, he will commit him to goal for Non-payment of \$20, his last fine

All of which is respectfully submitted for your approval. -

I Have &c. &c. &c.

H. Ouseful,

17, January 1867,

Will you be pleased to send me at your earliest convenience, a list of all the fish you have caught, during the year, last past, and ending on the 31st day of December 1866. -

I, also require to know, and get from you a return of the different description of skets, you have in use, and the value of the same. - also the value of the boat you use in fishing, &c.

17, January 1867,

Sir, I have the honor to apply to you for a license to fish gill nets by Mr James Corruthy and John Mollard of Leesville, County of York. - -

Those two men, intend to fish gill nets for white fish, Salmon trout, pike, and sciscos.

I consider ten dollars each, for a season license, sufficient, and I recommend the same, for your consideration and approval. - -

17, January 1867,

Sir, I have the honor to append the application of Mr. John G. Spain for a place to fish situated at Long point, Lake Erie. -

Mr. Spain, is the owner, and occupant of thirty acres of land, and marsh, and the place he applies for, is situated some where near his residence, running east, toward the Light house, on the Point. - - -

I consider he should have a season license, giving him exclusive control over the two chains "Reserve" of beach the entire length of his fishery; and I recommend him accordingly to your consideration.

Sir,

19. January 1867.

I have the honor to renew, at the request of Mr. Peter Price, my application for a three years lease of a certain fishing ground at Long point, Lake Erie; see former application dated the 17th day of September 1866. . . .

Mr. Price, in addition to fishing, has requested of me, to know if he can trap musk, and musk-rat, on the two chairs beach reserve, for fishing, at Long point, licensed to him, without being interfered with by the Long point Company; and he also wishes to be informed, and so do the other fishermen, if they are justified in shooting wild duck in proper season without being interfered with and prosecuted by the said Long point Company. . . .

I believe this Company, pretend to lay claim to the wild duck, without the beach reserve, as well as to those within the reserve. . . .

I consider it very necessary, that our fishermen should be allowed all enjoyment, which the law grant them, without fear, let, or hindrance, on the part of this Company or their servants. . . .

Sir,

I have the honor to report for your information, that Railway car loads of deer pass here daily, in bond, from Detroit to New York, locked up. Eighty passed here today locked up in a box car. —

I have heard of only two bucks been seen on the Grains here since the 14th, besides that one, I have reported to you about. —

One passed here by express, on the 16th, addressed to J. Lambert, Homer, St. Catharines; I will have no difficulty, in prosecuting the person to whom it was delivered. — The other one was seen on the platform at Harrisburg station, on the 18th and was taken west by the train. —

To enforce this law, I would require to be passing and re-passing along the Railways the whole of my time, for at least some days to come. — This I am not prepared to do without orders to that effect. — I understand that the venison will in future be packed in boxes and barrels to escape detection. —

Sir,

12. November 1866.

I have the honor to follow up to you my report of the 3rd November, instant, regarding an absurd claim set up by George Lottidge, owner and occupant of Lot No: 29, and part of lot No: 30, Broken front houseⁿ of the township of Saltfleet. . . .

By the original grant from the Crown to Lieut. Col: John Young, dated 17th of May 1802, Copy herewith, the late W^m Lottidge exercised whole and sole control over that portion of Burlington beach, from where the post was first planted which marks the south east angle of the tract of land 22. acres deeded to the late Samuel Dwyne about the 9th of March 1837. -

From this post to the post planted in the ruin of the old Kings Head Inn, or Government House - the distance would be about 77. Chains. . . .

Now I have ascertained that by extending or prolonging the line marked by the letter ~~xxx~~ B, in the margin of the copy of the deed or exemplification herewith No: 1 - which ~~the~~ George Lottidge has had done, by Thomas Allan Molyne D. P. Land Surveyor it comes just to the post, the place where this was planted as the first boundary of Sam^l Dwyne tract of land 22. acres. . . .

John Dwyne, the successor of Sam^l Dwyne, and George Lottidge are brothers-in-law, and it is reported that John Dwyne leases the land No: 29, and a portion of No: 28 from George Lottidge, for \$8, a year: please refer to the documents dated 1st inst, enclosed in my report of the 3rd November 1866. -

At the time 1802, the Government first deeded lots No: 29, 30, 31, and 32 - to Lieut: Col: Young, Burlington Bay, was called the Little Lake, or Head of the Lake Ontario. . . . Leaving this altogether out of the question; - the description of the lots 29, 30, 31
- and

and 32, situated on the south side of the water,

which divide the main land from the long beach, should be ample and sufficient proof how absurd and unjust for George Lottidge to claim. To the damage and injury of the fishermen, and in defiance of the Crown. . . .

My copy of deed herewith (No: 2) given by the late Rich^d Barclay, to W^m Lottidge, father of George Lottidge, dated 9th of March 1819, which appears not to be recorded until the 26. of October 1833, - the line between lots 30, and 31, was again extended and prolonged, notwithstanding! that it is positively stated in said deed that the land or lots 29, 30, 31, and 32 is situated on the south side of the water which divide the main land from the Long beach, marked in the margin of the two deeds, No: 1 and 2, respectively with the letter A. . . .

My ejectment summons dated 14. of September 1864, No: 3, herewith, the year before you honoured me with the appointment, I hold George Lottidge attempted a tyrannical course towards W^m Rodkin one of our fishermen, at the time in possession of fishing station No: 8. Burlington Beach, but he afterwards abandoned the suit. - My the Notice attached to Ejectment you will please observe what Lottidge then grounds his claim upon, to that portion of the beach leased then, and at the present time to W^m Rodkin by the Crown. - Lease at the former time is sent herewith. . . .

3

At page 6, in the fifth semi annual Report of the Water Commissioners for the City of Hamilton - herewith please refer to the Engineer's report on the filtering basin, the site of which is on Burlington beach, while at the same time he has

but a few years before sold the same property to Mr. Thomas Armstrong for a further sum of \$200. - There! and I may add, that Mr. Thomas Armstrong, when he first commenced fishing on Burlington Beach, bought out Joseph Jones, and Thomas Lottidge, who bought from Levi French, who bought from Senior Jones, with George Lottidge's approbation - Armstrong paid \$200, forty of which went to Joseph Jones and Thos. Lottidge, (not Wm Lottidge see No: 37. &c. &c. &c. the balance \$160, to George Lottidge, - and to prevent the other fishermen enjoying any of the beach he took possession of it, gave a long lease of part to John Dyer, his brother in law, and retaining the balance to this day in his own possession, selling some and charging rent for the rest. - Is it not too bad? - I hope the fishery branch of the department will not suffer this to continue any longer. - - -

Harold Fletcher paid the late Wm. Lottidge ten dollars a year \$120, in rents for the privilege of fishing and occupying the Crown Lands. And Wm. Rodkin, a fisherman, actually paid \$50, for the like privilege. - - -

George Lottidge also received \$200, from the late Mr. John O. Matt, for gravel to ballast the G. W. Ry. - Wm. Lottidge, father of George Lottidge died about 7 years ago. - - -

4, In the year 1859, a man named Thomas Sinclair Potts, having settled as a fisherman on Burlington Beach, built a house there, - Lottidge entered a suit against him, and ultimately the house was maliciously burned down, as it is now said at the instance of Mr. George Lottidge. - - -

The House was burned to put Potts, Peeble, Wilson, and Barclay out of possession. - - -

See documents herewith No: 4 and 5. - No: 2 of No. 5, part three points out that George Lottridge then claimed the property of the Crown on the beach - By adverse possession by himself, and those through whom he claims for sixty years and upwards, - The Crown I believe can resume possession of the Crown Lands, whenever it pleases, -

The first deed was dated 17, of May 1802, this was from the Crown to John Young of lots 29, 30, 31, and 32; - The deed to W^m Lathridge father of George Lathridge the present occupant of lot 29, and a part of 30, see document, No: 2. of Nos: 1 & 2, does not appear to be in existence until 9, of March 1819, and this would be only about 47, years. -- Document No: 4. is herewith for your perusal. --

Philo Bates, built in the first instance the house at present occupied by David Fitch, see No: 39, in my report of 1st instant, forwarded to you in my report of the 3rd instant. - Lottridge entered a suit against Bates, but this suit was compromised by Lottridge, buying out Bates. - - -

In the Sixth Semi-annual Report of the Water Commissioners of the City of Hamilton, and page 22, herewith you will find George Lothrop was paid \$300, for the site of the filtering basin and he gave a deed to them for the same

Mr Joseph Perry, Thomas Armstrong, Alex. Brown,
John Thale, Alex. Kolla, Benjamin Gould, Richard
Thale, John Livingstone, Jas. A. Secord, Mrs Fish, Ben
Joice Mrs Baldry, and others are applicants
for the crown Lands on the beach, belonging
to the Crown, and are prepared and willing to
pay rent for the same. —————

I strongly recommend that their desire to obtain the same will receive your immediate attention, and I would respectfully suggest that before a re-distribution of this land shall take place such other measures may be adopted and consummated as will put Mr. Lottidge, and all other persons out of the possession they illegally hold of the known land property at the beach.

It is the manner of tenure held by those parties, George Lottidge &c. &c. which has always heretofore marred the quiet and peace of some of your fishermen, and the authority which I as your Overseer should and ought to possess. - The fishermen have always heretofore been a prey to the land sharks, and some of them in turn have preyed on themselves and others. -

I again, in conclusion, humbly, but respectfully ask you to put a final stop to the same, by carrying out my recommendation contained herein, and submitted to you already in my report, of the 3rd of November instant. - - -

TRANSMITTING VENISON BY RAILWAY PROHIBITED.—Mr. J. W. Kerr, Game and Fishery Inspector, the City Police Magistrate, and Mr. E. Irvine, Solicitor of the Great Western Railway, had a conversation yesterday in regard to the transmitting of venison from one place to another on the Railway. They were unanimously of the opinion that if the practice was continued, the Company rendered themselves liable to be prosecuted according to the law for having venison in their possession. The agents at the various stations along the line have accordingly been notified not to take any deer in charge.—This step will, we feel confident, materially assist in putting a stop to the violation of the law, which has become very general among sportsmen in almost all parts of the Province.

28. January 1867. —

At the Hamilton depot inquiring for and about
4 deer — none — went out at 9 am came in
at 5 p.m. Miles 3. —

Dear Sir,

25, January 1867. — P. M.

I have just received your letter of the 22nd instant, and enclosing, regarding the deer I seized, as already reported to you, addressed to David Law Esq^r. —

I feel much obliged to you, for speaking your mind out so freely, so clearly, and so directly pointing to myself as the individual, attempted to be shown as most guilty.

My vague report of the 18th could not lead you to this conjecture or rather conclusion. —

I seized the deer on the morning of the 18th inst, and immediately after, I reported the matter to James Cahill Esq^r J. P. — Police Magistrate here — "I made my information on oath of the fact" — Mr Cahill sent detective Harris for Mr David Law, who appeared before his Worship at the Police Court, I was then sworn, the case entered on the Magistrate's book, and proved by me. —

Mr David Law, being then present, was called upon to answer to the charge — his reply was, the deer was not found in his possession — he could not, he said, be made responsible — he believed the deer was intended for him, but he said he would not claim it, ~~as~~ it was not worth the expense of getting it skinned, and cut up. — He said he only hoped Mr Kerr, would not get any part of it, as he Mr Kerr understood Kerr got all those things. — The deer was present in Court all this time, with the address I sent you fastened to a cord around his neck. — I had the deer in my possession until the Magistrate confiscated it. — Mr James Cahill, the Magistrate, informed Mr David Law, what the law was in the case, after which he confiscated the deer, to which Mr Law did not offer any objection. —

Friday

and Mr Cahill gave Capt Keells, Chief of Police an order for its disposal. -- The express Messengers at my request, apprised, Mr Law, that I had seized the deer before the Magistrate had Mr D, brought before him and so Mr Law acknowledged himself before the Magistrate. . . .

On yesterday, I met Mr Law on James st, when he made use of threats towards me, so that before I read your letter I anticipated its contents. . . .

The Chief Constable's abstract, ^{herewith} taken from the Magistrate's book, will show you the case was fairly ^{fully} tried ^{and} according to law, anything Mr David Law may have promulgated to the contrary, notwithstanding. . . .

I merely acted as the Seizing Officer, and gave my evidence accordingly, that done, ^{confliction ceased and} my connection with the deer ceased, -- So that all the latter part of your letter is entirely inapplicable to me, and we = called for, ^{you do me wrong without a cause.} -- It appears to me you have been misled, as the acts attributed to me, were adjudicated on by James Cahill Esq^r J. P. -- all I have said above can be corroborated by half a dozen, ^{beside the Magistrate} ~~of the Police~~.

Had your telegram or letter reached me before the deer was disposed of, or even after Mr Law was arraigned before the Magistrate, I would, ^{have} cheerfully obeyed your orders, but your telegram only reached me on the evening of the fourth day, after my connection with this deer had altogether ceased. . . .

As to the law in the case, I did not expound the law, the Magistrate before whom I bring my case do it for me. -- I have ^{never} yet, sat in judgement upon any man in a case, I was interested in, and I never mean to. -- Mr Law could have a

weeks ^{or longer} time allowed him - if he asked the flag te
for it, - and if he lost the deer it is all his own
fault. . . .

The Sarge neither cost me nor the dep't
anything. - And I may as well say boldly out
that even if it did, I would not take money
in the way it is offered by Allan Gilman's
hope I don't do such things. . . .

I hope the foregoing explanation will
prove satisfactory. . -

Sir,

I have the honor to apply, for a renewal of License for Messrs David Ward, George Durnan and Patrick Gray, of the fishery extending from "The Mumbles" to the Don River, including the Toronto Island —

This application is for the current year, at the rate of fifty dollars, payable in advance. — — —

Messrs Ward & Co. are desirous of obtaining a lease of this fishery for a period of years. —

They would like to have a clear front outwards of ten miles reserved to them, besides the entire lake beach as applied for,

All of which is respectfully submitted. —

Dear Sir,

I have just received your note of the 25th instant, stating that "Mr. Patrick Gray, refuses to pay your 'afet' for the plan and survey you made for him last summer on the island, (Toronto) he says he did not employ me, but that you did". -

"Will you be good enough to inform me how that is?"

In reply, I will give you a quotation from my diary on the subject. - -

Thursday, 28 April 1866. -

Went to Toronto, by Railway, to the island, thence to Toronto, accompanied with Mr. Gray, who engaged Mr. Charles Munroe D. P. L. S., to make survey of piece of land for him. - - -

And in my letter of the 29th, April 1866. To the Hon. Commissioners of Crown Lands - it is thus!! -

I arrived here yesterday, and having seen Mr. Patrick Gray, one of the lessees of the fishery I went to the City, where Mr. Gray engaged Mr. Charles Munroe, Deputy P. Land Surveyor, whom he intends to pay, to lay off ten acres of land attached to his house, in accordance with your instructions, at different times to me on this head, - all of which is submitted. -

Sir, I have again, at the request of Mr. Patrick Gray, of Toronto Island, to apply to you, for a lease of the acres of the same in connection with his house, and the fishery there, the same to be for nine years or such longer period as may be granted by you at the annual rent of twenty dollars payable in advance. --

This becomes the more necessary just now, as I believe Mr. Charles Hewitt of Toronto, who made a survey and plan forwarded to you, on the subject, last summer, is about to pay Mr. Gray, for about thirty dollars agreed to be paid by him for the same. --

Mr. Gray, has hesitated to pay this amount, up to the present time, simply because he has not yet received a lease of the same promised by the Department. --

4th February 1867. -

I have the honor to receive your letter of the 30th ultimo, stating that Mr John Douglas of Fort Erie, would be willing to render me assistance towards protecting and watching the fisheries along the Niagara River. -

Mr Chester Harris, is the only Lessee of the fisheries there this year. - He will protect his own interest. - And I don't consider it would be any material help to me were he Mr Douglas, authorized to act as local guardian there, under my humble direction. - - I don't want him at all. -

I am aware that fishermen from Buffalo have been in the habit heretofore of coming over on our side of Lake Erie, (near Windmill points and point Abino) to set their gill nets at night, lift them in the morning, and return in a small tug boat, they use for the purpose. -

If this is repeated this year, I will capture tug boat, nets, men and all, and herewith submit the same for your advice. -

I am posted on my business at Fort Erie and I hope the department is satisfied on this head. -

We the undersigned Lessees of the fisheries at Queenston and Niagara humbly pray that you may be pleased to have the Fishery Act so altered and arranged in regard to our fishing in the spring. -

I have the honor to forward to you, an application I received this day from Mess^{rs} Thomas Elliott, and four others. - Lessees of the Fisheries at Queenston, and Niagara. - I have much pleasure in recommending that their request be complied with. -

I do this from my knowledge founded on examination of pickered caught between the 5th May, and 1st of June last year - and then reported to you. -

That the close season, for pickered such as frequent the "Niagara River" below the Falls would be well, if fixed for the month of November, same as white fish. - In the locality of Niagara and Queenston. -

I have the honor to submit to you an application from Mr. Thos. Elliott, Lessee of a fishery at Niagara, in reference to having the fishing for white fish at that place extended to the 15th of June. -

I have much pleasure in recommending this matter to your favourable consideration; It some time happens that the white fish do not make their appearance at Niagara, as early one season as the other; And the rarely remain beyond a month, and never make their appearance again at either the two or four mile creek hauling grounds, until about the same time the ensuing season, and hence the application herewith. -

I have the honor to report for your information, that on the 20th January last, at Baptiste Creek, between Chatham and Windsor, Mr. L. Swinson, station Master of the G. W. Ry there, sold the deer I reported to you on the 26 of January, to Mr. William Tieble, a Conductor on the mixed train between Windsor and London. —

Mr. Swinson is a sporting character, shoots game out of season, and trades extensively in the same; while at the same time, he is well versed in the game law. —

Mr. Wm. Tieble can prove the case that he bought the deer from Swinson, on the 20th of January; and the Express Agent, who was carrying the deer, will prove that he received it from Mr. Wm. Tieble, to take to Charles Tieble at Fort Erie. —

I hope a severe fine will be imposed on those two offenders, it will have a good effect. —

And will you be pleased to instruct the Surfers of the District, to prosecute. —

7. February 1867. -

Sir,

I have the honor to acknowledge the receipt of Mr. Henry Storey's letter of the 29. of January last, with your request, that I would report upon it - I may here mention briefly that I read the draft of this letter, before it was written to Mr. Whitaker. -

The deer alluded to, is the same I reported to you on the 26th. inst, it was put on the train at London, for Erie, and when about to be transhipped at Paris to the Buffalo and Lake Huron R. Road, was taken possession of by Mr. Joseph Gates, detective officer, G. W. Railway handed over to me at Hamilton, on the 23rd, and confiscated on the 25th. January, after I had received the telegram from Mr. Charles Noble, Fort Erie. - - -

It was after this, after my connection with the deer ceased, every thing complained of in Mr. Storey's letter, happened. - - I was not present at any part of it except the trial before the Magistrate where Gates was tried.

The conviction against Gates, will I have no doubt be quashed, as there must be a conviction before confiscation of the deer could take place. - In other words Confiscation follows conviction, and there is yet no conviction in the case. -

I believe after the deer was sent to the Industrial School, it was taken to Judge O'Reilly's house who gave the children in return a quantity of mutton. - On receiving the annexed note from Mr. H. M. Storey, I showed it to Mr. Cahill the Magistrate, and his reply was, if Mr. O'Reilly or any of the managers of the Industrial School thought proper to give the children mutton, and take the deer, they could do so, without infringing the law, and so there the matter for the present has ended. - - -

All Mr. Henry M. Store, with whom I have con-
ferred on the subject wants, is, that you be pleased
to empower him to seize all deer, game &c, &c,
in the neighbourhood of Chatham, Baptiste &c,
and Windsor, and prosecute the parties in whose
possession the same may be found for breaches
of the Act . . . - And this he will do if em-
powered without either fee or reward. - -

My jurisdiction not extending so far west, I
could not give him the necessary authority. -

There is a great deal of poaching carried
on between Chatham and Windsor. -

I have the honor to report for your information, that the slide or fishway recently constructed at Dunville, Grand River, does not at the present time, meet the requirements of the Act. — I was there on Wednesday last, — and I made an examination of the premises. —

I find that the lower end does not come within six inches of the surface of the water in the river. — And although the water was high, after a night and day rain, still I can assure you, from my own personal observation and examination, that I consider the slide a complete failure, and I give it as my candid opinion that no fish, in its present position can ascend the same; or go up the river. —

Will you be pleased to give me instructions, as required by the 5th clause of the Act. —

Sir,

18 Feb 1867.

I have the honor to submit the application of Mr Geo: H. Gillespie, Secretary and Treasurer of the Long Point Company, Lake Erie, offering \$50. a year, for all the fishing privileges surrounding the island there. -

On the 17, January last I sent forward an application from this same gentleman; And about the same time, and since, I have submitted applications from other persons viz^z Messrs John G. Spain, John Jackson, Peter Price, and Edwin Howe, for license to fish on a portion of the fisheries now applied for, in the whole by Mr Gillespie. - Perhaps the best thing would be to let all persons applicants have what they already applied for, giving the balance to the Long Point Company - I am constrained in submitting this application to act thus, because aware as I am, that preparations to fish this year by those persons above have been made at great expense; and in justice as well as in duty bound, I cannot act otherwise. -

The matter is however submitted for your consideration and decision. -

The great object the L. P. Company have in view, is to get the fisheries altogether under their ^{sole} control, because of being so contiguous to their property. I have no objection in recommending this application bearing the reservations referred to.

It ought to be worth, if properly developed, \$200. a year. - I have &c

John W. Kerr
H. O.

Sir,

20 Feb: 1867,

In compliance with your circular of November last, I have now the honor to enclose my return, showing the products of the different description of fish taken during the past year, in that part of my district, situated on Lake Erie, between Port Rowan, and Fort Erie, on the Niagara River. —

I have much pleasure in submitting, with the above the quantity and description of material used for capturing the fish therein described. — The intrinsic value of the fish &c, and ~~you will~~ the number of persons engaged in fishing; you will please find herewith. —

I believe the quantities given, are a fair statement of facts and may be relied upon. —

The white fish, fishing, on Lake Erie, is of very short duration; and with the exception of twelve barrels taken at Turkey Point, this last season by seine fishing, all the rest are gilled fish of first quality. —

The white fish gilling commenced about the 25, of Oct, last, and terminated "according to law" on the 19th day of November. —

So that all the time for catching, "taking rough weather into account," is about twenty days of the entire year altogether. —

The White fish only frequent the reefs of rock, which are situated not more than a mile in any place from shore, at this particular season of the year. —

I believe they come there to spawn.

S

When they arrive, the farmers, who have for years past, been in the habit of catching them, on the old haunts, repair thither, and catch all they can. —

The farmers do this each evening, weather permitting, in their frail flat bottom punts, and raise the nets in the morning. — Almost in every instance ^{early part of season} the fish taken are of the male tribe! — I saw myself, only ten female fish, in a quantity of three hundred. —

Selling fish, by the barrel, is not done by any person in my district. —

As sixty five ^{fish} such as I allude to, in this instance, will at any time fill a barrel full, I have in compliance with your circular, bar-
relled them all for you, in the return. — — —

Of course you are aware that I had nothing to do with the fisheries on Lake Erie, until after the 1st day of July last (1866,) but I do think, that a similar account, in every particular, will be a fair statement to go by, for the year ending 1865. —

I have therefore given such an account as count accordingly. —

I may here mention, that several of the persons who fished last November, have not yet paid for the privilege they enjoyed. —

I have no doubt, that if alive and well, they will do so, by next November, if not before. —

I have therefore to ask your permission that I do not in the mean time, be ordered to prosecute them for fishing without a license.

I have much pleasure in giving you, an approximate return herewith, of the fisheries for the year 1865. - As called for by you. -

— All of which, I respectfully submit, —

John W. Ken J. O

Sir

20. Feb: 1867.

I have the honor to send you, herewith a return, showing the products of the different description of fish caught at the fishing stations situated between Lussanston Heights, on the Niagara River, and Whitby Harbour on Lake Ontario. -

I have much pleasure in submitting with the above, the tabular statement you require showing the quantity, and description of material in use, now employed in capturing the fish, as described therein, with the intrinsic value of the whole. - -

I believe the act is, on the whole pretty correct. -

The fishing at Niagara, during the past year 1866, has been very good, particularly the white fish gill net fishing. - -

And for the short period, the white fish fishing was carried on there, it was splendid.

The white fish fishing, as at present appointed by law, is very injurious to the fishermen on Lake Ontario; and I would strongly recommend that an immediate change be made in the act whereby fishing may be continued from the 30th day of May to the 1st day of August. - I do not believe it at all injurious to the fish to do this. - It would be a great boon to the fishermen! - While at the same time, I would recommend that the close season for white fish, be extended to the 15th day of December, and a close season be fixed for our Lake Salmon Trout!

In making up my return for the Department, I have attempted the plan of

classifying the various nets and fish of a like kind, which I hope will meet approval. —

I have also, as you will have perceived, kept my returns on Lake Erie, separate, from those on Lake Ontario. I have done this, with the view to prevent complication and confusion. —

At Burlington beach, owing to the short time allowed for seining white fish, when fish are there, the returns from there are rather slim, this however, has been remedied, and made up by gill net white ^{fish} fishing, by one or more independent persons there. —

At Toronto Island, the white fish fishing seining was a complete failure last season, owing to the same cause. — viz: that of strict compliance with the (law). act. —

But the scicea fishing at this place, still continues a successful and profitable business to the lessee. — At Deseriville, Mr John Moland, does well in trout gill net fishing. — Mr Jos: Kitting of the Frenchman bay, caught the largest salmon trout, last season in Lake Ontario, several of them weighed upwards of 25 lbs, and scarcely any were under ten pounds. — He is the most law abiding fisherman on the Lake. —

It is very hard I can assure you to get some of the fishermen to keep an acct of the fish, they catch. — To trip and get them do this ~~It~~ is one of the greatest difficulties I have had of late to encounter. —

It is only by repeatedly hunting after the fishermen and by enquiring of their neighbours, that I am at all enabled to get at the truth. —

I give herewith, an abstract of the whole which compiled, shows at a glance, the sum total, All of which, is respectfully submitted. —

Hon: Commissioners
H. F. H.

Sir I have the honor to enclose an application from Mr. J. M. Merritt of Walsingham, for a fishing station on Long point. . . .

It is very desirable that immediate attention be given to the applicants for fishing stations on Long point, as by the enclosed from Mr. Merritt you will perceive how necessary it is that you give those things your immediate attention. . . .

Mr. Kerr

Dear Sir - I was speaking to you last fall to lease the fishery from the out-let from the Island to Spains, and I wish you would write and let me know the particulars, for I would like to get the lease as soon as possible for spring fishing - Nothing more but will wait for the receipt of this note

J. M. Merritt
Walsingham Post. O. W. 3

8. March 1867.

Sir.

I have the honor to refer you, to my reports of the 5. of May, and the 9th day of June last, (year 1866). Those were in reply to your letters of the 30. day of April, and 29th of May 1866. —

Altho opposed then, to allowing seine to be used in taking suckers, shults and other rough fish, or less herring gill nets in any part of Burlington bay. — I have after mature consideration come to the conclusion, that to allow me the discretionary power in respect of this, as at the time referred to, "alluded to by you", would prove a great boon to our licensed fishermen, and I will therefore honestly confess to you, that I ^{can} no longer see any serious objections to your now granting what you proposed in your letter to me of the 29th of May 1866. —

No fishermen have been fined, during the winter, for any infraction of the act, and I have not heard of any of them, going out on Sunday. —

I have no hesitation, in admitting, that I now desire in consequence; that they receive a little indulgence. — of course, if sanctioned, I am not going to allow seine to be hauled piecemeal all over the bay, not a bit of it! — Nor do, I mean to allow the gill nets to be set up and down all over, nothing of the sort. —

I shall confine the fishing altogether within certain limits, and within certain dates, — and I have reason now to think, that the fishermen in this instance might have and get a fair trial.

Until very recently, I was not aware that our fishermen on Burlington beach, were so extremely poor and needy. —

I have reason to think now, that if you sanction, and give me this discretionary power, the fishermen will appreciate your kindness, with becoming gratitude and thankfulness. —

It is after several interviews with them, and after their repeated applications, that I was induced to look into this matter most carefully. —

I am certain it will not injure the fishing in any manner to catch herring with gill nets of the size mesh you allude to, 2½ inches long, in 80 or 100 feet deep water. — And as for mullet, suckers, sheep heads, and yankee drummers, &c. &c. they are only to be had in spring of the year. —

Those latter fish, are much prized, at this season of the year, because of the scarcity of fish in general. —

I have much pleasure in making this application to you, in behalf of the fishermen and I strongly recommend the matter for your immediate consideration, and prompt adjudication. —

I hope the reasons set forth will justify me in your estimation, and opinion for the course I have deemed it expedient, now to take in this matter. —

14. Mar: 1867,

With reference to Mr. Russell's letter received some time ago, in reply to mine of a previous date "stating that a fishery expert who examined Fanelon falls, - reported no speckled trout in that vicinity?" -

On yesterday, I again met the person, who in the first instance gave me the information, and he reiterated his former information, stating, the Fanelon falls, he referred to, is situated within four miles of Owen Sound. - - -

Mr. Whitaker, will know where the place is I now allude to. - I am satisfied the information I received, was ~~correct~~ from the beginning quite correct. - It is a speckled trout country.

Sir,

14, March 1864,

I have the honor to report for your information, that on Monday last, a wild turkey, supposed to be sent by a person named J. Maitland, of Toronto, was received here by express, made up in a paper parcel, addressed to E. Hope Esq of the firm of Buchanan, Hope & Co - Merchants of this City. -

The turkey was delivered at Buchanan's store to a young man, George Hope, son of Charles Hope, who signed his name in the express book for the same. -

Mr John A. Hare, express messenger, proved the case and stated that he pointed out to young Hope - the turkey, when he delivered it. -

I may also mention, that I had the house of Charles Hope Esq searched for the turkey, under a warrant, as soon as I heard of it, but the Constable did not find it. -

The case was tried before James Cahill Esq J. P. to-day, and notwithstanding the proof, as herein set forth, was dismissed. -

Sir -
I have the honor to enclose herewith copy of Resolution of the Municipal Council of this County passed at the sittings thereof, on the 6th instant, relative to the erection of fishways by the Grand River Navigation Company over the dams upon their works. -

In reference to the matter I may mention that the Company have built dams across the River at the villages of Mt. Healey, York, Seneca,aledonia, and at other points in the County, but that they have not attached any fishways thereto, the consequence of which is that the ascent of the fish past the dams is rendered not only impossible, but that they are killed in large quantities in the early spring at the foot of the dams, where the taking of them is prohibited. -

I may also add that the Inhabitants of the County, residing upon the River, are most anxious that the Company should be compelled to build these fishways over the dams erected by them.

I have the honor to send you herewith a letter and resolution, which I received this day from the clerk of the County Council of Galway, touching the creation of fish ways or fish slides for the passage of fish over the dams on the Grand River. —

The Grand River Navigation Company, have dams erected across the river at five or six different places, which hinders the ascent of the fish. —

I already reported on this subject, on the 13th of August last, and received in reply, that Mr. Whitcher, would make a personal examination with me. — But as this has never been done, I beg now most respectfully to recommend, that some immediate notice and action be taken in compliance with the application and resolution herewith.

Mr. Kerr Esq. Sir, Yours of the 18th is received and in reply - The fish way is of no use, it is not constructed in the proper form and it is too short, does not reach down in the water, so fish cannot get on to the lower end so as to run up, and it never will be of any use as it now is - This is the opinion of every one here.

22. April 1867,

I have the honor to report for your information that on Friday last, accompanied by John Haddon, Constable, Toronto Island - I succeeded in finding Robert Hunter, and John Culbitt, shooting wild ducks in the Marsh adjacent to the City of Toronto. -- I captured three ducks shot by Culbitt and four shot by Robert Hunter. --

I brought the cases before Mr Alex. McKelvie Police Magistrate - Toronto, on Saturday last who forfeited the ducks to the boys house, except one, I was allowed to give back to Hunter for a sick wife. --

No decision or rather no fine was imposed as the Magistrate has reserved judgement until today, it being argued that the Magistrate had no jurisdiction in the Marsh beyond 500 feet from the Main land to which limit the City of Toronto only extends.

I have the honor to report for your information that on Tuesday last, the 16. instant, Mason, the whiskey detective proceeded to the island, Toronto, seized a seine in use at the time the property of Mr P. Gray, one of our Lessees there, together with four pike, gill nets. - On my return here (Toronto) I applied to the Police Magistrate to have the net restored to Mr Gray, which was immediately done. -

There was no trial in the case, Mason acting by the direction of Captain Bruce, not deeming it prudent to proceed further. -

It is a great pity, that a man like Mason should be encouraged in the manner he is; I never knew of a similar case but one, which happened in Dublin in the year 1842, when the recipient DeLahunt, actually killed a man, attempted to charge an innocent person with the offense, but ultimately was hanged himself for the same. -

April instant, were again up before the Magistrate (here) Toronto, on Saturday last:— Messrs Tunning and Wright were discharged. —

The cases against Wood, Jerran and Hill were clearly proven. —

Mr Robertson a promising young Barrister, argued and I believe made a good case for his clients sufficient at least to cause his worship to put off the decision until today. —

Mr Robertson's argument goes on to show, that the island does not belong to the City of Toronto, nor yet to the County of York, for that the lines or boundaries of Counties and townships applicable to the Counties of Wentworth, for instance would not, and do not apply to Toronto, and there is nothing to show by any map or other plan where those lines if prolonged produced or extended would intersect each other. —

26. April 1867.

Madam. - I am directed by the Hon: Commissioner of Crown Lands to inform you that I have been instructed by him to rent the small strip of land in front of your farm on the Burlington beach, in the township of Saltfleet, east from the old ballast road of the G. W. Ry. to Mr Joseph Perry, "who resides on the beach, forming a part of the same", in connection with his fishery, for garden purposes.

I have therefore to inform you that your possession of this strip of land, will cease from this date. -

I am, however directed to inform you that you may continue as heretofore to possess and occupy the two road ^{ways} allowance which lead to your farm, over and across this strip of land. -

Sir,

29. April 1867,

In obedience to your order of the 20. instant, I have now the honor to report the facts of the case in reference to the annexed letter. —

The writer a young gentleman, a Pianist at the village of Wellington Square, has been misled by Mrs Joan Baldry. — The real facts are as follows: — On the 16. of November 1844, Mr James Waddell first occupied the lot referred to, as a tavern stand, this was before Mrs Joan Baldry, as Mrs Joan Williamson made her first appearance on Burlington beach. —

In the year 1847, James Waddell built a roost house on this lot. — On the night of the 11th of Sep: 1854, his dwelling house situated on this lot was maliciously set fire to, by the late Charles Corey, resident on the said beach, and burned to the ground. — After this, Waddell, still kept possession of the lot, and he used and occupied the roost house, until the month of October last, when it was demolished by Mrs Joan Baldry. — Those facts I find are borne out in evidence by Mrs W^m Perkins, Fred^l and Zachariah Corey, Robert Hall, John Goddard, and Wesley, &c. —

In June last year, I issued the annual license at the beach, to James Waddell, and Mrs Baldry, on the 15th day of June, and altho' Mrs Baldry was well aware of this fact, still it was not until the month of October, following;

that she by misrepresentation succeeded in having Waddell fined for an alleged trespass on this same lot, his own property. - Waddell appealed against the conviction, and the consequence was that through the influence of Mr Charles A. Sadler, Barrister, the case was staved off from day to day, until the last day of the quarter sessions held in December last, and then at Mr Sadler's instance, adjourned until the March quarter sessions to be heard the first day of that Court. - Waddell had to pay Messrs Frank Mackleam and John Barr, "Solicitors", twelve dollars, for attending to the case for him, he had also to pay four witnesses for attending Court in his behalf. - - -

At the quarter sessions which came off in March, the case instead of being heard on the first day of the Court, was again put off until the last day of the Court, and it was then that Waddell by the advice of his Counsel F. Mackleam, compromised for \$8. - Waddell had to pay his witnesses for attending quarter sessions in March, last, also. - - -

This small sum, altho' trifling in itself, is sufficient admission on Mrs John Baldry's part, to establish the title still existing in James Waddell, even suppose you throw my Annual license aside altogether.

In my report of the 3rd of November last, at No: 6. - I placed James Waddell as the occupant of the lot. -

I advised Mrs Joan Baldry, when she brought the case before Squire Hopkins, to leave the matter to the department to settle, but no! - she must have the lot, and she went so far as to promise me money, if I would consent, and give it to her. - -

With all the foregoing facts before my eyes, I do not even now feel disposed in giving Mrs Baldry this small lot of a portion of an acre of land, to the prejudice of James Waddell, unless she pays him amply the expenses she unnecessarily put him to. - or! as I have myself informed her. - unless the department order me to do so. - -

My letter of December last copy herewith, will show you my views there, and the impression on my mind is still unchanged. -

In my letter to you of the 25th instant I avoided everything that might prejudice those persons in your estimation. -

In the postscript of Mr Simcoe King's letter he says - The most of the land the $\frac{1}{2}$ is on the Canal reserve. -

Now as regards this new move on the part of Mrs Joan Baldry, I have to say; that Mr Whitaker, on the 22 of November 1865, told me there was no such

thing as a Canal reserve, at Burlington beach,
such as this letter attempts to imply. - -

In conclusion, I have now the honor to re-
commence that this matter may be finally settled
so far as this small lot of land is concerned
by your honorable department.

I Have &c,

Notice to all persons who fish. —

Whereas it has been represented to me, that persons are at present fishing gill and other nets in ^{the} creeks situated at Burlington beach, without being legally authorized to do the same. — — —

I now give notice that henceforth, after this date, no person is allowed to fish any description of net, until a license is first taken out for the current year of 1867. —

Unless this is immediately complied with; I shall be obliged to carry out my instructions.

No person or persons is allowed to haul herring seines in the bay on the sucker haul grounds for herring: —

My dear Sir.

You will please find your licence for the year 1867, herewith. - I cannot from memory say, where the west boundary of Mr. Goble's is placed. His lease however, will show it, and beyond it (east) you must not go; If your net is too long for your ground you can let it ^{and} (thus!) out on either or both wings, but you must ^{avoid} contention with your neighbouring fishermen, and I would strongly recommend you to keep your tongue quiet. - I was informed you offered Mr. Sheas \$20, if he would prevent ^{fish} belonging to the other fishermen from coming through his place, and I was told you are continually threatening to stone the fishing ground again, and that because George Richardson declined to swear for you, contrary to truth: you would not employ him any more. This if true, is all wrong, - I understand you say very often have things of me; I cannot help this! I am obliged to carry out all instructions I receive from time to time, and I am sworn to do it. - The fishes at Niagara were divided by me, as I was instructed to do, from Head quarters; And after I divided and laid them off, the department approved of the way I did it - I do this on my own acct. If all the white fish in Lake Ontario, were on Goble's ground, and on yours, you cannot go there without their consent. I cannot move Goble further on to John Campbell's ground, than what his lease calls for. The limits of each ground having been approved of, so shall they remain as established. - It is really

then, to raise any more fuss about the matter.

Sir, I have the honor to receive your order to report upon the annexed letter containing various charges alleged ag^t me by John Raynes of Niagara. —

Raynes language, as applying to me individually, are deliberate falsehoods. —

I sent a box of White and herring, last year to Mr W. F. Whitches, I paid Pat Stated a fisherman for them, the fish never came to hand, they perished before they arrived at Ottawa, they were sent as a specimen to demonstrate the claps taken at Niagara fishing, and for no other purpose.

I did send another small box of fish "scissos" last January, to Mr W. F. Whitches, Ottawa, I bought them from John Gaaffe, and paid for them also, in doing this, I was not aware that I was offending any person, and my letter herewith, written at the time will explain the object I had in view. — This small box of scissos like the former, were never received at Ottawa. —

As regards the charge alluded to, by this Special Correspondent, made by him on the 28, of September last, against James Cantwell; in the commencement of his letter of 22, April 1867. — I protest to you that he does nothing of the sort; he is at fault about the date, only three full months last in his reckoning. —

On the 28, day of December last 1866, I had a case I brought ag^t James Cantwell, dispo-

of before Wm Kuley Esq J. P. Niagara; personally
John Raynor knew nothing about it, but two
men Joe Ayers and George Richardson, whom
I produced established the charge, and I al-
lowed Raynor to get half of the fine because
he gave me the ^{first} information; you will perceive
he has nothing to complain of in that behalf.
I reported the case on the 31 of Dec, three
days after the trial referred to. - This will

Again! when you ~~extended~~
convinced you, that I do not allow James
Cantwell to do as he likes - loopy herewith -

Again! when you extended my jurisdiction
to Niagara, I found James Cantwell in
possession of eighty five chairs beach front-
age, which I reported to the department, un-
der advice from you, I have since sub di-
vided this fishery into five distinct hauling
grounds, and a part of a sixth, and in-
stead of \$30. a year, which Cantwell paid
before the whole 85 chairs; I, at the present
time rent three of the sub division grounds, and
a part of the fourth for \$6, and two re-
maining stations are still for renting, how un-
like monopoly. - I allow no fisherman to
have his own way, fishing as he likes. -

And thus you will see how little cause
of complaint there is of undue intimacy on
my part with James Cantwell. -

On the contrary, I certainly have

I reason to know that latterly Cantwell is dissatisfied, with this (sub division) arrangement but I believe it the very best and most equitable that can be made; I made it under direction from your office. -

My position, as an overseer, does not warrant ^{with excuse} my going into the American Fort opposite the town of Niagara, ^{ascertain if Cantwell expressed himself as} and explaining the loose expressions used from time to time by Cantwell, I am aware he has a very long tongue, - "A barking dog never bites."

Unlucky I am specially advised, I decline going further into explanation, and trust all I have said will prove satisfactory.

I have the honor to report for your information that I returned from Suckerton, Niagara, Port Walhouse, twenty mile Creek, the Clinton, thirty mile, forty mile and fifty mile Creeks to Burlington beach, on Wednesday night last. —

I was among the fishermen, from Saturday to Wednesday: In consequence of the great flow of ice from the upper Lake (Erie,) the fishing is very late this season, at Niagara. —

I would respectfully recommend that Sailing for white fish there, be extended to the 15th day of June next, instead of to the 10th of June, as agreed upon by Mr. Whitaker and myself. —

The fishing as regards white fish, was very trifling, hardly any taken, altho six Scuries were at work there, and another getting ready. —

I found on my arrival at Whitley Harbour, that a person living east of this Harbour has been in the habit of coming into the Harbour, and fishing several hundred yards of net "for the purpose of trade and commerce without a license"; - I gave directions to a constable to watch this man, whose name is John Pilkington, and the constable on Saturday last informed me ^{by telegram} that he captured the net and boat, as I had instructed him. - If we are going to head salmon in this neighbourhood, we must begin and show the public that we are alive and awake in upholding the fisheries laws. - - -

Between Duffie Creek and Leslieville east of Toronto there are twelve persons at present engaged fishing; I have sent you part of the rent, of a part of those twelve persons, the balance I shall send you shortly when I get it. - -

At Etobicoke, Port Credit, and Bronte there are three men fishing at present. Their rent will be forthcoming very shortly. - The water surrounding the Island at Toronto, has raised four feet since the 19th of April last. - -

I had the plan of the island with me on last Thursday, when in Toronto, and I called at Murray's office to get him to place the gap on the same, but could not find him; - I will attend to this matter immediately, and

20. May 1867,

Sir. I find this evening, that I cannot get away on tomorrow morning, as I expected I would, when I wrote you on the 18th instant. . . . The Vice Chancellor, is sitting here at present, and I am summoned before him to give evidence, so cannot get away, until I am first examined. . . .

I have simply to say with regard to the fisheries at Toronto: reserve one chain all around the island, and from the mouth of big cove, reserve one chain on the outside of the marsh, down to the City limits joining the township of Scarborough. . .

The fishermen at Leslieville, which is within the City limits of Toronto, require to have at all times, free access to the water and water edge, and this chain, will give them a free use of the beach, I cannot recommend a monopoly not even to the Corporation of the City of Toronto.

All the fishermen, at the island of Toronto, at present live on the reserve, so please, be so good as to keep ^{them} there; and I am sure, they are entitled to your consideration. . . . I heard in Toronto on Thursday last, that Mr John Bell Alderman there, had gone to ~~Toronto~~ ^{Ontario}, not only to get possession of the island, but also of the fisheries. . . I hope this will not be granted, let the City have the island save and except the reserve for the fisheries and Light House. —

At this present time I am aware that the fishermen are well taxed by the City of Toronto. See for instance Mr P. Gray's tax for year 1866, per bill herewith is \$16.20¢, and this too, before the City had a legal right in the premises. —

This year I find Mr P. Gray is assessed \$900, and this too, with house, situated on the fishing Reserve. —

And Mr David Ward, another of the fishermen assessed me on Thursday last, that he was assessed for a like sum. Mr Gray's slip is herewith. —

I hope Mr Whitcher will see that our fishermen's rights are protected at the Toronto island, not only now, but for all time to come, and don't give the Corporation of Toronto, any right nor Control over the fishermen, nor over the bay, nor over the marsh there as regards the fishes. "Corporations have no souls". —

My report written you on a former occasion is so full, as to the representations applied for by me, on behalf of the fishermen, that I deem it unnecessary to say any more on that score. —

I have simply to add that I told the fishermen on the island, that a reserve of one chain all around the island was fixed by an order in Council.

I hope you will not make ^{me} look small in their estimation by again changing it, to anything else.

I will mark off the station on the Map, as soon as I possibly can, but I can assure you, that ~~the~~ map is no more like the Toronto island at this present time than the Parliament building at Toronto are like those at Ottawa. —

24. May 1867.

Sir: I have the honor to draw your attention to the amended order in Council, which I hope you will be pleased to have amended, because the farmers along the lake shore, will now ~~commence~~ fishing, and if questioned will say: we are only fishing for ourselves; we are not fishing for trade or commerce. -

Doctor Green, the Mayor at Whitley, and myself had a conversation on this subject yesterday; the doctor is a very warm supporter of the fishery Act, but he told me, that if I brought up a farmer before him, for fishing nets, and catching fish for his own use, he would pause, and apply to the department for instructions before fining him. The doctor says, this order in Council dated 26. day of April, herewith, override and sets aside clause four, at page four of the Act, I want your opinion of the law at once on this subject.

24. May 1867.

Sir. I have the honor to report for your information that on yesterday morning at the town of Whitley, before Robt. John Gunn Esq. M. D. and Mayor of Whitley, I had John Pilkington of Port Whitley, arraigned for fishing 139 yards of net in Windermer Harbour, for the purpose of catching fish, "for trade and commerce" - He was fined, five dollars and costs, and his nets and boat confiscated. . . .

John Pilkington, lives outside of my district but the fishing was done within my jurisdiction. As he is a poor man, and gets his living by (always) fishing "without a license", I recommended that the net and boat, be restored to him and the fine and costs, be allowed to remain uncollected as a guarantee for future good behavior. -

He is now willing to pay a small license of five dollars a year, conform with the laws in future, and such being the case may I give him back the net, and boat, and a license for the current year, at the small rate I propose.

Hamilton, 25. May 1867.

Sir

25, May 1867.

I have just received your letter of the 24, instant, applying for a license to fish in Lake Ontario, along the beach, in front of lots Nos. 20. and 21, township of Clinton. -- In no part of your letter, do you say, what description of net nor fish you intend to fish for; in any case I may state, that five dollars is the very lowest rent, I can take from any person for this current year of 1867. -- Every person is obliged to pay, and strictly keep within the letter and meaning of the Act. --

I have a very great respect and esteem for Mr B. McCurdy, but I am obliged in the discharge of my duty to be governed altogether by the regulations and instructions I receive from the department. --

If you wish to rent, let me know whereabouts lots 20. and 21. are situated, or if near the 30 mile creek, and give me all particulars of your net, and kind of fish you intend to fish for.

I have &c.

3rd June 1867.

Sir, Will you be pleased to find herewith your licence for the current year of 1867. - I have extended your limits as far up as Lyons Creek. - The price will be only 92, extra; this will give you control over all the farmer fishermen, if they become trespassers. - - -

You ask me, if you as a Lapssee can haul, a seine on the part of the beach, extending between the two extreme points, mentioned in your lease? - I answer you, most decidedly, you can! -

The lake being a public highway, the property of the Crown, if farmers take you up for trespass, which they have no right to do; I am prepared for them, with a letter from Head quarters on the subject you write me about; don't let them frighten you. - - -

I will give you a little advice on the subject: - When you start from the Harbours with your boat and net, you have a right to land on any part of the beach specified within your licence: - you land, give out one of your lines, which is secured to one end of your seine, - go round with your boat, let out your net, and then land again with your other line, haul up your boat on the beach, haul in your net take out the fish, make as many hauls as you please, you have a perfect right to land on the beach, to do so; and no person can prevent you; so long as you do not erect fixtures on the beach off the lake in front of which your fishing is situated; no farmer can prevent you, even suppose he should claim the beach. -

his private property. — No man of sound
sense, will interfere with you; the Crown owns
the water in which you fish, and you have
a perfect right! to land and secure your fish
on the beach. — If any person interferes
with you write, I am however persuaded,
no one will interfere with you, and you
can yourself get along by mildness, forbear-
ance and sound judgement; — I never myself
fail in getting on even amongst the most
obstinate! If any thing happens write me. —

tion that on visiting the Fisheries at Port Erie, I
was informed that Mr Chester Harris, the lessee
there had taken several hundred pounds weight
of white fish for some time back in a small center
herring net, which is a contravention of the act. -
I spoke to Mr Harris about this improper act
of his, which he admitted, but pleaded the
large size of the fish as the only excuse, one
of them alone being seventeen pounds weight
and several of them eight & ten pounds
weight each, and none of them under five
pounds weight. - I was present on Thursday
night when these hauls were made by Har-
ris, he only caught two white fish; I think
Port Erie fishery, can be made more valuable
hereafter than heretofore. -

I recommend that Harris be prosecuted
as the first step towards the prosperity of this
fishery, but at the same time I deemed
it proper to lay the matter before you
before I would take further action in
the premises. Shall I prosecute
him.

I send a blank license herewith, and when sending me the money (\$5.) five dollars - please send me the length of Lake portage, he requires, and also the description of nets, number of yards &c, &c. he intends fishing. -

I am unable to fill up the license, from the fact, that the portage you apply for is not situated in my district, but at the same time, I am satisfied every thing I do in the premises, will be sanctioned at Head quarters. -

Please fill up the description of the fishery, in the body of license, and send me a copy, and oblige.

22nd June 1867

Sir,

I have the honor to report for your information that on this day before James Cahill Esq^r J. P., Benjⁿ Goulds, of B. beach, was fined ten dollars and costs for fishing on station No: 12, B. beach, leased to Mr Peter Grant, and for hauling a seine and catching white fish not having the permission of the owner, nor a license from the department to do so.

It is only a week ago today, since I had Goulds up before James Cahill Esq^r who at the time inflicted the small fine of 50¢ for a similar offence. - In the present case Goulds has appealed ag^t the Magistrate's conviction. -

I found Benjⁿ Goulds, James McQuill, Jarvis Bates and Jas: Leray, at eleven o'clock last night, hauling, but not having a sufficient force then, I deferred securing the nets until this afternoon when I obtained two constables and a conveyance the Constables having been armed with the authority from the P. Magistrate, Jas: Leray and myself having pointed out the nets: the Constables then seized them, and took them away for confiscation to this place. - Benjⁿ Goulds, appealed ag^t the Magistrate's conviction. -

I have done everything in my power both by advice and warning to prevent Goulds pursuing his illegal course, but all to no purpose. -

I will fetch him up again for fishing without a license, and will also be obliged to insist on his paying \$15, a fine imposed for fishing last November in close season, and catching white fish. -

I gave him a written notice on the 3rd

instant, warning him not to fish on the
Peter Grant's fishing without his consent or per-
mission, but he still persists in doing so,
with his eyes wide open. —

Sir, In obedience to your orders given me on the 16. of April last, at Ottawa, I have now to report that on yesterday at Denville, I examined the fishway in the dam there, and having met Mr Woodruff on the spot, who agreed with me in its requirements. - As already reported upon, the slide was too short, when first constructed, consequently did not go down deep enough in the water. - Mr Woodruff says, he will have this immediately done. And every thing in future, I required to be done in behalf of the department will be cheerfully complied with on my applying to him direct -

wide, is 6' $\frac{1}{2}$ high, and has the usual apron
length of plank all the way across - a good
substantial fishway, is also receiving here. -

There are several mills in working or-
der here. - That is to say Messrs James B.
Holden and W. H. H. a grist mill - pays for
water rate of \$240 a year. R. McKinnon, has
three mills in operation, a woolen factory,
a grist mill, and a saw mill, pays about
\$700 a year water rate. - John Scott, rents
the water privilege for his saw mill at the
annual rental of \$325. a year. -

Seneca dam, Grand River. -

Sir. I have the honor to report for your information, that on this day, I made an examination of the dam across the Grand river at this place. - I now give you the particulars as follows: The dam is about 250 yards wide, from bank to bank, is about 6 ft high above water, and has an apron to it of about 12 feet plank length; an old saw mill is situated here, which has not been worked for the last six years, was then worked by a Mr. W. Lindsey. - - -

All the property belong to Grand River Navigation Company, Mr. Thos. Moughton, of Norantford, is agent, and Receiver, under the Court of Chancery. -

The bottom of the Grand River at this place appears to be rock, and I believe piles cannot be driven. - A fishway, however, is required to be constructed in the Seneca dam, one descriptive of the model Mr. Whitaker gave me, will suit this dam admirably. -

I will immediately serve Mr. Thomas Moughton, of Norantford, with the necessary notice. -

Mill dam, at Luis lock No. 3. Y^a River..

Sir. I have the honor to report for your information, that I made my inspection of the above yesterday, and have much pleasure in furnishing the particulars as follows: -

This dam, is about 120 yards long, from bank to bank, and about 6' $\frac{1}{2}$ high, has an apex of 12' $\frac{1}{2}$ plank length, all the whole way across. -

A fish way, is absolutely necessary here, and one descriptive of the model, will be quite sufficient. -- Mr. Colin Baker, rents the saw mill here, from the Navigation Company, for \$250 a year. - Mr. Albert Sweet, who has a planing mill, pays \$260, a year, beside a back charge of \$200, for water rate. The planing mill is owned by a person named James Gerish. -

Mr. W. Wilson, has a cabinet and chair factory in this place, and he pays sixty \$ a year for water rate. - The buildings belong to himself. -

There are a number of islands in the river below this dam, one of them about 20, acres. - -

I notified all the persons to keep out the saw dust, and mill rubbish, which they promised to observe in future. -

60' yards long, this is a kind of waste gate
or waste way. - I deem it necessary that
one of the fishways should be constructed
here. - On the east side of the river is
a plaster mill owned by Alex Taylor. -

That portion of the river ~~supposed~~ used
for navigation purposes goes by Taylor
mill, and enters the river again at Eu-
diana. - - -

The dam and saw mill are situated
at the head of Youngs island, and about
20 years ago was used as a race course.

There is no place on the Grand river,
it is more necessary to erect fishways
than at Mount Healthy, it is the next
dam to Dunville, which is about 20 miles
further down the river. -

I will serve Mr. Thos. Boynton, of
Borantford, with the necessary notice in
this case. - - -

Mill dam, at York, Grand River. - -
Sir - I have the honor to report for your information, that I have this day, made my examination of this Mill dam as follows; It is 300 yards wide from bank to bank, about 6 ft. high and has the usual apen plank length 12 ft.

It is absolutely necessary, that a fishway of the model description should be constructed in this dam. -

There are 3 mills at York. The Hon. Isaac Buchanan of Brantford owns a large grist mill here, and Thomas Mastindale owns a plaster mill. - Buchanan and Mastindale's mills are on the east side of the river. - and a mill owned by Mr. Hume, used for grinding Barley and oatmeal is situated on the west side of the river. -

There is a wooden bridge about 400 yards wide across the river at this village. - -

Two of these mills originally belonged to a Mr. Alex. Mitchell, who made over the same to the Hon. Mr. Buchanan. -

The Mill owners pay a large annual sum for the water rent, to the York River Navigation Company. -

I will serve Mr. Thos. Brantford of Brantford, the Agent, who receives the rents, with the necessary notice to construct a fishway on the dam at York, and I will propose to Brantford immediate for that purpose. -

Sir. - As I am about to go home, that is to
Dunville, on the Grand River, I thought I
would take this opportunity of addressing
you on a subject which has for some
time back attracted my attention as well
as the attention of many others at Dunville
which is the protection of the fishery
extending from the mouth of the G^d River
up the river to the plaster bed; a place
about ten miles above the dam at
Dunville. - When I first came to reside
there the fish were very plentiful, but
now owing to the number of nets of
all descriptions used, to torch fishing, and
to killing fish out of season, the fish are
rapidly disappearing. - I, as well as a
number of others would like to see the
destructive way of killing the fish put a
stop to, and the only way that sug-
gested itself to us of protecting the fish
was, that to rent the fishery between
the point above mentioned, or from
the mouth of the G^d River to

The plaster bed a distance of 15 miles from the Government, our object is to protect it for angling. I would therefore beg leave to make this application for renting of the above mentioned fishery ground, and would request to know the terms -

Read, Copied, and reported on

P. O.

12. July 1867.

Sir. - I have the honor to receive the application of Mr. Henry Lawe, with instructions that I should report thereon. - I don't think the allegations set forth are strictly correct, some of them may be true, but in the whole I am aware they are not strictly true. - -

I cannot recommend that Mr. Lawe's application be granted, already the river from Dunville to its mouth at Port Maitland, is rented this year 1867, for about forty dollars.

The river above to say about 20 miles abounds with fish, and I have when recently there, on the 25th of June, about the time Mr. Lawe made his application, that the Indians, and half breeds, caught below the dam, this spring, at Mount Healey more

than 100 waggon loads of rough fish; -
and Mr Adam Davis, Reeve at York confirmed
this statement; - I was not aware, until I
made my appearance at Dunville, on the
25, and at Mt. Healey on the 26 of June last,
that the fish were so numerous. - But
from my own observation, and what I
hear, I am satisfied a profitable income
can be derived of say nearly 100⁰ a year
from that part of the Grand river, which
Mr Davis in behalf of his friends applying
for, as an angling fishery. - - The moment
the ice commences to move in the Grand
river, in spring, the Indians, half breeds
and some white men, assemble at the
dams - Mt. Healey; - It is a great public
benefit for the Country people to be able
to get such an abundance of fresh fish
in early spring, when choice fish are
scarce. - It does not injure the take
of the Anglers. - I shall place all
those people under rent next year, who
use those small seines at Mt Healey
dams - provided I am alive and well.
I cannot recommend Mr Henry Davis'
application to be granted. -

Hon^d Sir.

A. Humphreys May 18. 1867.

I hope I do not overstep the limits of propriety in addressing to you this letter: if I do so, I beg your pardon.

Some time since I complained to a J. P. of the filth and poisonous refuse, put into the Grand river from a soap factory within the limits of the town of Galt, utterly destroying the fishes on the west side of the river, to the distance of three or four miles down the stream. - In answer to such complaint, it was told that Mr. Sherbourne of fishes, was the proper party to remove such nuisances, having met Mr. Sher in Galt I directed his attention to the matter, going in Company with him to the place. - Mr. Sher condemned it in the most emphatic language, and promised to remove it immediately. It is now about 12 months since and nothing whatever has been done, although Mr. Sher has visited Galt, during that time, he appears to have paid no more attention to the matter. - I lately mentioned the case to some of the Fishery Association of Galt, who informed me that they had been doing all they could to accomplish the same end, and at the same time strongly advised my communicating to you the fact, I have just stated. - What I wish to know is what would be the proper course to pursue under the circumstances.

I am &c,

Hon^d: A. Campbell, Wm. Cowan,
Ottawa, Canada.

P.S. I may state, some members of the fishing Association put the question to me, would I be willing to take action in the matter without remuneration, should they be able to obtain a Commission for some person to act, on their behalf. - - - This I stated my willingness to do within the limits of a reasonable distance.

W. C. -

12. July 1867,

Sir, I have just received your interesting report upon Mr. Whelohan's letter, who complains of poisonous refuse being thrown into the God River at Galt, with my connivance and consent. - This is not exactly correct, when I visited Galt last year, I met Mr. Cowan, and having spoken to him about Mr. Oliver's soap factory situated on the bank of the river, I proceeded there to examine the premises, Cowan only accompanied me part of the way, he did not wish that Mr. Oliver should see him in my company and presence. - I subsequently served Mr. Oliver with a notice to abate the nuisance which he did.

I have never seen Mr. Cowan since the 9th of June last year, nor has the slightest complaint been made to me personally since. -

By a letter, dated 29, of May 1866, from the department, I visited Galt, and my letter of the 9th, June 1866, will explain to you, at a glance what action I then took in the matter. —

Whatever the nuisance was preceding my appointment, I knew not, beyond what there came under my personal observation and which I reported at the time, but this I do know now, and I am happy to report a marked improvement has taken place on every mill, and manufactory there since. — — — On the 16th of April last, when in Ottawa, Mr. Whitcher, the head of the Fishing in our dominion, drew my attention to a letter he received from Mr. Miller of Galt, and instructed me to see Mr. Miller on the subject of this letter, when my other duties would allow me to do so. — Until Friday the 24 June, I was not able to see Mr. Miller on that day. I did see him at Galt, and he only referred to a vague report abroad, put in circulation by ~~John~~ Cowan, that Messrs Howell and Thompson threw their dye stuff into the river, this I ascertained on enquiry was not the case. — and that the ashes of the Soap factory killed all the fish on the west side of the river, on which Mr. Cowan himself lives, a few miles below Galt. — an absurd notion of his, as Mr. Miller terms it. — Fish at Galt, were never more numerous than they are this year. —

Now as regards Mr Sam Oliver, the
soap factor, when I left home here on
the 24 June last, I made up my mind
to prosecute him, on my arrival there,
I found the soap factory burnt to the
ground, his loss great, what could I do!
I had to sympathise with Mr Sam^d
Oliver, in his hour of trial, and I am
satisfied when Mr Oliver rebuilds
again he will remember the cir-
cumstances better than if a fine of
£20, and the costs were imposed.

Marine & Fisheries.

Sir. I have the honor to report for your information, that several persons are fishing with hook and hook in front of Port Union, Lake Ontario, and make a profitable business catching Salmon trout. - at Niagara and Point a similar practice is carried on. - at Port Erie, opposite the old Fort, it is more numerous and extensively gone into. -

But it is at Hornumdale, Turkey Point, Long point and up to Port Burwell, that this hook and bait fishing is most extensively carried on. - As I am aware that the ostensible object fishermen of this class have in view, is to evade the laws; I have to draw your attention thereto, with the view of having an order in Council made to meet the emergency. -

I now Hornumdale to Port Creek at the upper end of Long point, more than 50 people are making a profitable business of bait hook long line night fishing, and damaging our net fishes, who complain of it as an injury and grievance to them. -

12. July 1867,

Sir, I have the honor to report for your information, that on Saturday the 29. day of June last at Norwoutford, I served Mr Thos. Norwoughton, Agent, and Receiver of the Grand River, Navigation Company, with notice to construct fishways in the Mill dam at Colden's, Seneca, Sims lock, York, and two at Utterdaley Grand River. ---

On the 2^d. of Jul next, I again waited on Mr. Norwoughton, and pressed upon him the necessity of constructing the fishways this year. - From the tenor of his language, I could only come to the conclusion that nothing will be done before laying it before the Directors of the Company. ---

Mr. Norwoughton said if it would meet the requirements of the Act, he would have the locks at each of the places above; opened at certain times in the spring of the year, when the fish are running, but he thought that was all that could be done. -

I requested him to place on paper what he proposed doing, and I would be happy to submit the matter for consideration, this he promised to do immediately. - I have not since heard from him: he has my name and address.

I am aware that the public demand to have the fishways constructed, and

I now submit for your advice and consideration the original of the notice I served Mr. Moughton with. - I await your instructions before I take further action in this matter.

Sir - I have the honor to send you herewith my diary and extra expenditure of for quarter ending 30th day of June last. - I have not travelled more (miles) than was absolutely necessary. -

Squid on my travels around, still old bad, and illegal practices amongst the fishermen, coming to light. - It will require more of my time and attention hereafter, than I have heretofore devoted to those bad practices. - - - My reports on some localities will show you, what it is that requires to be more keenly looked after. - The long marches I have made, the close looking after, and upholding of our laws, is not I am bound to say without its fruit and effects. - - -

For 16 days of last quarter, I expended all at a distance from home, a sum of \$72.05.

I leave this in Mr. Whitcher's own hands to decide. - I have worked a good deal, but still a good deal more requires to be done before I can report all things right. -

I hope my service will entitle me to a further advance of salary. I believe the receipts this year will cover all my expense and outlay, when paid in, that I may retire. - Not having any advance made me, for expenditure this year I have been obliged to do the best I could, and the more effectual to carry on my active duties, have to call to my aid my own salary, and even a portion of the rent silver in my hands. - I will make all things square when you remit me my quarters expenditure. - -

For all the other expenditure, you will please find the vouchers herewith. -

I have been 54 days actively employed during the quarter, in fact they were days and nights and still I have only charged 16 days in all, where the amount came up to \$72.05.

I am beginning to find that \$2 a day, never pays, and only for an occasional fine, I would not be able to live on this small amount. - - Provisions have been very dear I leave the amount opposite the days to be filled in by Mr. Bancroft. - I hope I will get a fair allowance granted to me for fair work done. -

19, July 1867,

I have the honor to report for your information, that on Tuesday last the 16th day of July instant, I summoned up John Post, George Long, and David Orvil, for that they in the latter part of October last, in Dup-
pin Creek, Township of Pickering, did join
for, Catch and kill three Salmon with
spear and torch light, in contravention
of the Fishers act. —

Sir,

24. July 1867.

I have as you instructed me, enquired into and now beg to report upon the order No 57, contained in the annexed papers issued by, and posted up in the town of Niagara, by Charles M. Pyne, Captain 42. Infantry, United States Army, commanding post, Niagara Fort, New York state. —

On Thursday last, the 18th of July. I proceeded to Niagara, and immediately waited upon Captain Pyne, who informed me, that our fishermen, had set their gill nets, on what is termed the leaf bed, situated in the mouth of the Niagara river, on the American side, and that he could stand this no longer, and so issued the order referred to; that he done so, from himself alone, had no orders from the Adjutant General of the United States Army. — Acted so, because, the fishermen were destroying the hook and line fishing by setting their nets in the leaf bed. Had been requested to do so, by the members of a fishing club, at Buffalo. —

Captain Pyne, stated to me, that his General Government, United States, claimed three miles out in Lake Ontario from their fort. — It was immediately under the American fort, not more than twenty yards from (land) the shore, where one of the nets complained of was set out. —

The General Gov^t of the United States, Capt. Pyne told me, has no fishing law, while the State of New York, has! However! the State law of New York has no control over what ~~is~~ he is pleased to call and term the General Government Military reserve. — This is something of the nature of our Ordnance lands. —

What the American law is, as regards this case, I am not aware, — but consider it very

wrong for James Cantwell, who is the only fisherman, I could trace the matter home to, to his net being set by him on the half lead. - And many persons told me, that Cantwell, does so, from motives of revenge towards the other fishermen. - - - This Joe Cantwell is the same man, who has been reported to you, as using disloyal language towards our Government, some time ago. - A reprimand in any case from you, will effectually serve him & all other fishermen.

From the nature and position of the United States fort, as compared with our dominion (here) at the mouth of the Niagara river, I do think Capt Payne's statement, cannot be altogether correct, for three miles, which he says! his general government claims; would bring the United States territory up to the 4 mile on our dominion side. -

While I disapprove of the fishermen setting their gill nets across the mouth of the Niagara river. - on the American side, and in American waters, still I would like very much, if the limits and boundaries of the United States were more accurately defined. -

It is true, that our fishermen have as Mr. Morgan Monifon, the member for Niagara been fishing for years in American waters, this has been more frequently boasted about, by the fishermen themselves, for a purpose, than it has really happened to be the case. I am persuaded that only for the cause assigned, no order, of the nature referred to, would ever be issued by Captain Payne.

I don't consider myself, that Captain is justified in posting copies of his order, which he did, in the town of Niagara. - What right he has to claim three miles out in Lake Ontario within half or even a quarter of a mile of our dominion is what I desire to know. - - -

Captain Payne, in addition, to what his name implies, is an intelligent, and gentlemanly man, has never interfered with our fishermen before, nor would not now, only the case was so glaring. -

He informed me, no matter where men came from (angles) they could fish on the military zone but he would not allow nets, nor fishing on Sundays. -

It was reported in Niagara, that Captain Payne, gave orders, to his soldiers to fire on the fishermen, if they set their nets on the bars head again. I found no foundation for any such report. -

I hope when Mr. Whitaker reviews this whole case, that he will come out with a stunning report, letter, and order, to our frontier fishermen at Niagara. - - With such an individual as Mr. James Cantwell, acting in the way, he has our good, and that of the United States, might, if not checked, very soon, become embroiled in trouble. -

I have never allowed our fishermen to set their gill nets in, or across the mouth of the Niagara River, on our side of the water. - If our fishermen were to do this, I would most undoubtedly have taken them up, prosecuted, and convicted, and confiscated their nets for a Contention of the fishing act, in that particular clause.

Hon. Mr. of Marine & Fisheries, Ottawa. I Have It. To build upon. - -

Received license to Thomas Armstrong, Aaron Fitcher, and Frederick Carey for year 1867. Money being sent below. — also saw Armstrong at the beach — about Wapodkris rent — went out at 3 p. m. came in at 9 p. m. miles 20. Horse and buggy. —

1. August 1867.

Sir,

I have the honor to report for your information, that complaint has been made to me, by several of the fishermen resident between Toronto and Whitby: That certain Indians from the State of Maine come into our dominion, early in the Fall; before Mink, and Muskrat trapping time commences, and kill off everything in this line, to our fishermen's injury. —

The Indians come across from Sagersburg, and immediately after landing at Prescott, commence their operations. —

A remedy is necessary: And hence my application in behalf of our own people, who are licensed fishermen. . .

I Have &c,

Sir,

1. August 1867.

I have the honor to enclose you, the copies of licenses, I promised you, in my letter of the 22^d of July last, viz: —

1. Dan. McQuayne, Burlington Beach. —
2. Messrs David Ward, George Durnan and Pat^o₃ Gray — Toronto Island. —
3. Messrs Thomas Kerr, Saml^o Woodruff, and Geo. H. Gillespie — Long Point. —
4. James Crockett, Turkey Point. —

With reference to the enclosed licenses, they are sent for record in your office. —

The rents have already been forwarded, please refer to my letter of the 22nd and 26th of July last. —

The rent at Toronto Island, has been only fifty dollars a year until this year, when I raised it, to sixty dollars a year; to this amount none of the Lessees dissented, if I may except Mr. George Durnan; however, I talked him into it, and I believe he is now satisfied that I am right, he was wrong. —

When in Ottawa, the 16. of April last and pending the settlement of the Toronto Island. Mr. Whitcher, and I, had a conversation relative to Mr. P. Gray, paying \$20, last year, for ten acres of the Toronto Island, which the department agreed to let him have for a term of years, at \$20, a year. — This not being complied with according to ~~agreement~~ the terms agreed upon, Mr. Whitcher was I think or I recollect, then pleased to say, he

5

would allow him Mr Gray the fishing
license this year 1867, instead. -

Will Mr Whitchee, be please then
to credit Mr P. Gray, for \$20 in his fishing
rent, this year, which Mr Gray paid last
year, for a consideration which was not
made good, to him Mr Gray. -

5. Augth 1867.

Sir.

I have the honor to state for your information that on this day, Mr. Wulfege of Norton applied to me, to rent that part of Worthington bay, situated in front of lots No. 1, 2, 3, 4, & 5, B.F. Concession of Norton. - "for the purpose of fishing there". - That is to say: fishing with hook and line, trapping for muskrat, and mink, and for duck shooting. -

The ostensible object, ^{never that} Mr. Wulfege has in view, is more particularly to protect the wild duck, the muskrat and mink, and keep trespassers away off his own property. . . . This! he has already repeatedly done, still the result has only been half satisfactory to him. - Mr. Wulfege has been for a number of years past, endeavouring to cultivate, breed, feed, and protect the wild duck, in this neighbourhood, and in this he has been most successful this year. - To find those ducks, ^{part} which, and wood duck shot off by other persons, before half grown or even fit for ^{the} table, is really provoking. -

Mr. Wulfege's opinion is, that wild ducks ought not to be shot before the 1st day of September, in this I agree with him. -

It is with a desire to protect the wild duck &c, &c, that he now applies for this license, a remedy. -

Mr. Wulfege wants to have by this license an exclusive privilege granted to him, and to have the same for a term of years, when he means to go to some expense in purchasing wild rice, and sowing the same. - Is there anything in the Act whereby a right of this sort, can be given to meet the emergency this case demands. -

10 Aug 5 1867,

Sir,

I have the honor to send you herewith Bank cheque No: 98. for the sum of Ten dollars. —

This amount you will be pleased to apply as follows:

Sir,

7. August 1867.

I have the honor to report for your information, that recently, the widow Charles Corey of Brighton beach, got married to a man named Rob^t Dorsett, who has gone in, taken possession of all that part of the beach, recently held by her former husband, Charles Corey. deceased. -

My object, in writing you, at this present time, is, however, to ascertain, if Rob^t Dorsett, can without any prior arrangement with this department, go in, take possession of this property, about 10 acres of a garden, and beach. - He has money, and I told him he must pay rent. -

No rent has been paid on the property, since my appointment: At which time there was \$40 back rent, due. - Will you be pleased to instruct me, what I shall do, in this case. -

Sir -

I have the honor to submit herewith for your approval an assignment made by Thomas Armstrong of his fishing station No. 7, at Burlington beach, to Mr. Fred. Corey, of the same place. -

While Mr. Armstrong only gives away the fishery &c. &c., he still retains in his possession a small house and a portion of the beach, where he resides. - -

I do think that a small rental of \$. per year should be imposed on him by the Department, and I would like very much if you would instruct me to this effect, so that I may inform me. -

There are about ten other persons on Burlington beach ("not regular fishermen") who should be compelled to pay a small yearly rental. - I beg to draw your attention to this matter also. - -

20. August 1867.

I have the honor to report for your information, that on this morning, I was informed by Dan McQuay, a fisherman, Burlington beach; that Robt. Bradt, whom I reported to you on the 7th instant, as having recently married the widow of Charles Corey, ~~deceased~~, had bargained to sell about ten acres government land attached to the fishing station number fourteen, B. beach, to a Mr John McKay of Hamilton for the sum of \$450, and had been paid \$10, in advance, to bind the bargain. -

On hearing this, I immediately went to the beach, and secured Robt. Bradt, with a notice (Copy herewith). Bradt denied to me all knowledge of doing so, I heard afterwards he had the assignment made out by C. A. Sadler Esq^r Minister in his pocket. - - I called next to see Mr John McKay, and he informed me that he had purchased from Robt. Bradt, his right of possession to the place including the fishing for \$450, but he told me he would not settle up with him until you approved. -

McKay stated to me he wanted the place for a Mr John Atkins, who would build a Hotel thereon, and get up pleasure grounds. -

I explained to him, that there was back rent and arrears of rent due thereon. —

This he said, he was willing to pay up, and applied to me to obtain your sanction to the purchase. —

Before John McKay made this application to me, I served him with the attached notice. —

This matter is now submitted. I ask for your further advice, as to how I shall in future act. —

Sir,

I have the honor to inform you, that Mr John Adkins, of this City, who has just purchased from Mr Robert Bennett, and his wife (Mrs Maria Carey) the widow of the late Charles Carey, any right, they may have had, to fishing station number 14, Burlington beach, and all the beach lands attached thereto, the property of the department, has applied to me to lease the same. . . .

I have agreed that Mr John Adkins, shall have this property at the sum of \$ 20. a year, commencing on the 1st day of January last. . . This is of course subject to your approval. . . and he wants it for a term of years. . .

I wrote you on the 20. instant, that arrangements were then in progress to purchase this same property; but as I had no power sufficient to stop the sale, beyond what I have apprised you, I done; and the lease 40 rent being offered, was accepted by me. . .

I thought it advisable in my own mind to do what I considered best for the department. . . .

Mr John Adkins is a respectable man, and will make a good tenant.

I have to acknowledge the receipt of your letter of the 5: instant...

I have no objection about the fishway proposed by the Government to be erected by you in your dam at Galt, and only I am obliged to be in Hamilton at the Quarter Sep: this week I would at once go up in obedience to your request. - I would gladly see you commence this work at once so as to put a final stop to the clamorous letters that are being continually writing to the Govt both by persons residing in Galt, Boonlin and Boon. -

I have no objection to your erecting the fishway on the west end of the dam, my own impression is it will strengthen the dam to do so, - I have forwarded your letter to the Department...

Some time ago I received a letter from Mr. Miller County Atty. Berlin, asking me why I did not prosecute you for delay. - I would recommend you to apply to Mr. Charles Lee, a practical Mechanic at this place, who is accustomed to such work, and he would build it for you in a few days.

18. Sept. 1867.

With reference to my report of today, sent you, regarding the box containing two Seines. - I have now the honor to state further for your information, that those two nets, at my instance and complaint, were seized by two Constables under a warrant issued by James Cahill Esq. J. P., for fishing without a license on the 21. of June last, at B. beach, where Benjamin Goulds, admitted the case, was fined one dollar and costs in all eight dollars. -

The nets were confiscated, and the fine was subsequently paid. -

In the appeal case tried at the quarter Sess. here, last week, the jury quashed the conviction with costs ("about 19 costs"). This was effected by sworn right payers, sworn by John Livingstone and Mr. John Martin, who formerly lived on the B. beach, but who now reside here. -

Mr. Peter Grant, who is in for this \$19. cost was absent from the trial at appeal, and so Rich Martin (Barister) took advantage of his absence, abused Mr. Cahill and myself with coarse epithets & had to apply to the Court for protection. -

Benjamin Goulds, has been so repeatedly fined, as often as eight different times, and there being no hope for his reformation, the Magistrate confiscated the nets with the express intention that they should be sold, and the proceeds applied to the department. -

Hearing yesterday that Goulds was looking for a
replenish to replenish the nets, and so heap on more
costs. - As I had the nets in my possession I con-
sulted Mr Cahill, his advice to me was, send them to
Ottawa, for if kept here, Goulds will get people to
buy black and white. -

I packed up the two nets, as you will find
them in the box, dry, and in good order, and in fair
and serviceable repair. - And having sent them by
back roads, and by ways, got them safely to
the steamer this morning at Brown's wharf, re-
ceipt for them herewith. -

The nets are good value for \$100 and you
may have an opportunity of disposing of them at
this price. -

I don't think it will be too much to
ask you to cancel his gill net license, for in his
case, the strict letter of law should be enforced
and carried into immediate effect. -

I recommend that this may be done at
once.

I have the honor to report for your information that on this day, at Toronto, before Alex McEach ^{Esq} J. P. - James Rodges, Charles R. Rodges, Thos. McLennan, and Henry J. Weaver, Jurries of Toronto, were each fined \$5, without costs. - "For having in their possession mink and muskrat hides, contrary to the 9. and 14. section of the Game Act". -

I was myself the prosecutor against those persons information having been given me at Port Union on the 31. of Oct. last, when I proceeded to Toronto, laid my information before the above Magistrate, who granted search warrants. - And hence the result of the same as above reported by me. -

Mr McEach, the Magistrate has written Mr. Whitaker to obtain the sanction of the department, to give back the hides, for the reasons set forth in his letter. -

If the department is pleased to do so, ^{any magistrate} I have no objection. -

AMONG THE FISHERMEN.—Mr. J. W. Kerr, the Fishery Overseer, has been looking after the fishermen along the Lake Erie shore, in the vicinity of Port Dover, during last week. A number of offenders were brought up and fined for taking white fish out of season. One 500-yard net was confiscated, and about a dozen fishermen were compelled to take out licenses, and pay the costs of prosecution.

CONFISCATED NETS.—Mr. J. W. Kerr, the Fishery Overseer, has in possession two fine new fish nets, taken up near Burlington Beach on the 26th ult., being set in the bay contrary to law, and which are supposed to have belonged to Mr. Frederick Corey, residing on the Beach.

3rd Dec: 1867.

Sir,

I have to report for your information that on Friday evening last at Rainham Centre, Cor: Sen B. Polusha, when serving a summons for Sam Hunt Leiges. found his brother Nathaniel cleaning two fresh white fish I seized them had him summoned before John Law Esq. J. I have the honor to receive your letter of the 20th ultimo, and in reply beg most respectfully to report as follows: Mr ~~Joseph~~ Joseph Perry, who exercises in proper his calling and trade of Blacksmith and Carpenter, and ~~in the season as fisherman~~ resides on the Burlington beach on that part of the beach ~~known~~ ^{designated} as fishing station No: 4, and this is immediately in front of ^{part} lot No: 27; ~~then~~ east of ^{lot} No: 27 is fishing station No: 3. ~~at~~ present occupied by Mr John Taffe, a fisherman; ~~and~~ Both ~~these~~ ^{stations} com-
prise the present position (and occupancy) of that part of the Burlington beach situated in front of the property owned by the late Geo: Croftwaite, No: 27, in B. P. Township of Sault Ste. Marie.

~~Mr~~ Joseph Perry, has lived here, for several years ^{past}, and Taffe is in possession for the last three years ^(14 years). Mr Jos: Perry and the late George Croftwaite were applicants to purchase ~~the~~ ^{small} strip of ^{beach} land lying in front of ^{part} lot 27, and sent forward the applications for them about 3. years ago, the reply then ~~was~~ from the Hon: Com: of Crown Lands was, "That Government would not sell any of the land on B. Beach, but would reserve it ~~for~~ ^{as} garden purposes for the fishermen". -

Mr Perry, subsequent to this applied, ^{to rent} ~~for~~ about ^{an} ~~1/2~~ ^{more or less} acre of land, situated in front of his house, ^{"for beach land"} which is also in front of the property lot 27, B. P. belonging to the late Geo: Croftwaite. -

On the 16. day of April last, being Sum-
moned to Ottawa by the Hon: Com: ^{of} Crown Lands to receive orders for the current season ¹⁸⁶⁷ I was instructed by Mr W. J. Whiteher to lease the piece of

Just referred to to ^{that he} Mr. J. Perry had previously applied for, which I did, including his fishery &c, at the rate of \$15 a year.

I subsequently, on the 26th day of April last, put Mr. Joe Perry in possession of this 1/2 acre of land in addition to his fishery - and on the same day I gave Mr. Eli Crofthwaite ^{wid. of the late S.C.} notice of what I had done. - Mr. C. at ~~that time~~ ^{this date} had this garden ^{with early potatoes} planted, and Mr. J. Perry did not then ~~go and take possession~~ ^{disturb her in the} ~~enter into possession~~ - but I ~~understand~~ ^{he has} since done so. - And ~~that~~ ^{he} intends paying for the fence erected ^{thereon} on the north side by ~~the~~ ^{her} late George Crofthwaite. - By reference to ~~the~~ my letter of the 29th of Oct last, you will find Mr. J. Perry's license &c. &c. - ~~By~~ ^{By} reference to my letter of the 29th day of April last, you will ~~also~~ find the copy of notice with which I ^{sent} ~~had~~ Mr. Eli Crofthwaite. - I ~~heard that~~ ^{Mr. Joe} Perry, under his license entered the lot ^{on a beach land} and cut grass and flags, since the potato crop was removed and ^{he} is now in possession.

Personally, as between Mr. Crofthwaite, ~~and~~ ^{the govt beach land} Mr. Joe Perry, my only desire is to obey all ~~orders which I may receive from you at all times on all occasions.~~ ^{which I may receive from you at all times on all occasions.} - I ~~will~~ ^{shall} make ~~an~~ ^{all} your instructions. Sir,

I have the honor to report for your information that on this day, before James Cahill Esq. J. P. John Bates, was summoned up for spearing Muskrats in the Wulages inlet, a portion of the waters of Burlington Bay. —

A few years ago, a similar case was tried before the Judges at Toronto, and if convenient, I will thank you to send me a copy of the decision then given by them, as regarding the public right, and fishery right to those inlets, and outlets, forming a portion of the waters of Burlington Bay. —

Mr James Cahill, the Police Magistrate here, before whom the case came up today, is very desirous of getting this decision by Saturday next, — and has adjourned the case in the present instance, which was brought by Wulages vs John Bates.

I have the honor to receive your letter of the 11th instant, asking me to state if the parties at Rainham, viz^t whom I propose to proceed under the fishery's Act, were fishing for trade, or only for domestic supply. - -

In reply, I have the honor to report that Mr Gideon Swarth, is a resident farmer. Thomas Fite, is a Carpenter, they fish for their own use and also for trade. - - Nathaniel Huntberger, a resident farmer, does not fish, he had only two white fish, in his possession, recently caught, it being close season. - Those persons are such as I describe them, they are also to all intents and purposes "practical fishermen" at this particular season "month of November" of the year. -

If the department approves, I am quite satisfied, that to drop those cases will have a good effect. -

I hear of no man who claims the privilege of fishing for his own use, except John McLellan Esq^r J. P., Reeve of Walpole, as I hear he stated he had liberty, to do so, from the department, at Ottawa.

Sir, I have to report for your information that on Thursday last, John Gape, Rich^d Gape, and W^m Depew of Burlington beach, fishermen, were charged by me, with fishing for white fish, in Lake Ontario, on the 29th of Nov; in contravention of the 14. Section of the Fisheries Act. —

It appeared from the evidence given by themselves, and Mr. B. D. Bates, to whom they sold the fish, that they caught 60 white fish, and trout, the largest number being white fish. —

The defence made, was that the nets set out were salmon trout nets, that they set them on Friday 29th Nov; white fish close season, and did not lift the nets until Monday the 2nd of Dec^r when the white fish season was up. — The Magistrate however fined them each \$10. —

This is one of those smart acts, the fishermen at the beach are famous for. —

Sir,

Hamilton, 1. January 1868.

I have the honor to submit for your consideration, and approval, a petition, addressed to you, by the two representatives of Parliament, the Mayor, several members of the Corporation and upwards of 500 resident inhabitants and others of the City of Hamilton. ---

"The prayer of the petition is that permission may be granted to spear herring between the 14 of Dec; and the 14, of April, or within such other limited periods, as you may deem expedient". ---

Having had the matter under consideration for some time past, I have come to the conclusion, to recommend that you will be pleased to receive the petition in a favourable light. ---

I must in the discharge of my duty make choice of such other date, as I do think most proper and advisable. ---

I do therefore most respectfully recommend, that permission be granted to spear herring in Burlington bay, from the 25 of Nov until the 1st day of April in each year in accordance with the prayer of this petition, and I hope the same will meet your approbation.

Sir,

1 January 1868,

On my return home, on Monday night last, I found your letter of the 26th ult^o which reads thus! — "Copy letter here" — My reply is, none whatever, beyond the simple fact, that on Friday last, at Fort Erie, an applicant for a fishing license informed me, I had been written to, complaining of irregularities, practiced by Chester & Harris the lessee of Fort Erie's fisheries. — I stated in reply, to my info^s that I never received any such letter of complaint, that whenever I did I was ready to act upon it. —

Perhaps the information was laid with you instead of with me, if so let me have the documents, and I will ^{if I can} prosecute the persons wherever they are complained of to you. —

At Niagara, there is none! — at Wellington, there is none!! — The complaints ~~at~~ there, must have emanated from Fort Erie and representation made (Have you any special information on this point) which does not apply to me. —

I can assure you, I have never yet received any special nor any other information beyond what I have above described.

When Mr Ches a Harry the dealer at
Port Erie, caught white fish in a net of the
description you allude to, I prosecuted
and fined him \$5 and costs for the said of-
fence. . . . But if he has caught herring,
black hals, pickerel, which means pike at
Port Erie, and pike which means pickerel
at the same place, which I know he has,
I would not prosecute him, except un-
der some special authority from you
as the Fishery Act contains none. -

Mr John Douglas of Port Erie, was the
person whom I was informed had written
me about the irregularity, but if he has,
I can assure him & you, that up to this
present time, I have had no special in-
formation from him nor any other person
regarding the point referred to.

I have the honor to apply to you to have the time for catching white fish extended ~~to the 25th of November~~ ^{all over my district} instead of ~~the 19th of November~~ ^{of it being kept} to the 1st of December - It might be made to read from the 25th of November to the 25th of December -

It may appear a little strange that after advocating an extension in the close season, I should ^{now} ask to have the ~~time~~ existing time curtailed. The fishermen all along Lake Erie, and Lake Ontario clamour for this extension to the 25th of November, and I have agreed to submit and recommend the matter to you accordingly. - Which I hope you will be pleased to grant them ~~accordingly~~ - Very few ^white were caught this season in November, up to the 19th of the month as compared with other years. -

Sir. Mr. Fin. told me that you was inspector of fishery's and you gave leases of fishing grounds. if so, I want to lease a place to fish on. --

I should like about one mile, and to start from the mouth of Mumpheys Creek and run south east along the bay shore. This Mumpheys Creek is in the head of the bay. Please write to me and let me know on what terms you will let me have it.

Yours,

John Anderson

Sir,

2^d. January 1868.

I have the honor to send you herewith an application from Mr John Anderson, to rent a fishing on the upper part of Long Pt. Lake Erie, near Port ~~Street~~ Rowan, not at present leased or occupied by any other person. —

I beg most respectfully to recommend that Mr John Anderson's application may be granted by you.

Hon: P. Mitchell.

John W Kerr Esq

Inspector of Fisheries

Hamilton, Onto

Dear Sir. —

I hereby apply to you as Inspector of Fisheries for a license for the year 1868, of the fishing ground known as the "Two mile creek fishery", near the town of Niagara, and immediately adjoining my property which said fishery station I held during the season of 1863. — I have heretofore had the honor of reporting to you personally the facts connected with the present lease of the above named station which it is unnecessary to repeat here, I trust that you will grant me a license of the station above designated for the ensuing year, and can refer you to Angus Morrison Esq and the Hon: Stephen Richard for approval of my application. — — —

Both gentleman named will endorse
my Case, Herewith you will find ap=
pended a recommendation of a similar
character, from W^m Kirby, Esq^r J. P., and
Reeve of Niagara. I trust I shall hear
from you at your earliest convenience

I remain

Yours very truly
John C. Secord.

I should be obliged if you could grant
Mr Secord the lease he applies for -

Yours &c

W^m Kirby.

Sir,

2. January 1868.

I have the honor to send you herewith
an application from John C. Secord Esq^r J. P.,
to lease fishing station at the 2 mile creek,
in the township of Niagara.

In the month of July last, Mr Secord
reported verbally to me, that Mr John Bolton's
hired man, had kept an improper woman living
with him in the fish shanty, near the two
mile creek. - I spoke to Bolton about it
he denied it, in total. - This is what Mr
Secord now now alludes to, in his letter, as
the facts he personally reported to me in con=
nection with the present lease - Mr John Bolton.

I cannot consistently in the discharge of my duty, recommend the John C. Secord application to be granted: Because the John Bolton has been in possession since the year 1863. - has incurred a good deal of expense in clearing the ground of logs and stumps; has had his rent raised from 20 to 30 dollars a year, with less ground than he formerly occupied. -

Besides the John Bolton, was last year, promised, a license for a term of years, when confederation; became as it is now, a fixed fact. -

This case, is entirely for your consideration, and submitted accordingly. . .

Rec^d #2. four months long, on acct of rent. -
this 5th of January 1868. - due for year 1867.

Sir,

1st January 1868. —

In reply to your letter of the 11th ulto, I again enclose you copies of two detailed reports made by me, respecting the white fish, I seized and which were sold by the Police Magistrate's order. — The proceeds of which, I then transmitted to the department. —

I have now further to state, that on the evening of the 20th of November, last, I arrived from Port Union, Highland Creek and Toronto, where I had been attending to my duties, when Mr. John A. Davis, "Express Messenger", informed me that he had on that day, delivered to Mr. P. D. Bates, at his stall, fish dealer, 3 barrels of white fish; — I asked him when they were received, he replied, on the evening of the 19th, and were only delivered, that day, the 20th of November, at 12 o'clock, noon; — My reply was, I did not think myself justified in making a seizure, altho' I find I reported the matter subsequently to you, on the 22nd of November last, those fish it appears came from Collingwood..

Now with regard to the barrel of white fish in question, which I seized at the Railway station here, at 7^{1/2} past 7, o'clock, p.m. on the 20th of November last, it was shipped at Windsor, on the same day, at 11, o'clock, a.m. Where those fish were caught I knew not; all I then knew about the matter was that Mr. P. D. Bates to whom those fish were addressed, had

written previously to the Shipper at Windsor, not to send him any white fish after the 19th of November until after the 1st of December, that the Mate would not receive them, because contrary to law.

I may here say. - "I never disputed your authority, nor the power extending the time for catching white fish, vested in the Government, and as respects the River Detroit, actually extended to the 25th of November this season". - Of this extension of time at Detroit river, I then knew nothing whatever! - All I knew at the time was, my instructions from the department was to seize on river all fresh white fish, it being contrary to law, for any person to possess any fish named in this act &c, during season when catching or killing the same is prohibited by law, vide - Section 16. of Act. - -

This was the law of the land, in the City of Hamilton, when I made the seizure, you have alluded to. - And I know you will not deny me a privilege, the only one I am entitled to claim at your hands, and that is contained in my oath of office to which I strictly adhered in this seizure and all things therewith connected at the time. -

Mr Charles M. Selous, the "Express Messenger", in whose possession, I found those fish, did not know then what kind of fish the barrel contained, fish he stated were delivered on the Express Car, at the last moment and

as a matter of course, he had simply to obey orders, and take all he got in charge...

Fish being perishable, it being moderately warm at the time for a few days here - "Several fish were destroyed by the heat" - And this barrel of W. fish, on being opened, and examined, coming fairly, as James Cahill Esq. J. P., Police Magistrate, stated at the time, within the meaning of the act, took my information of the Express Messengers, Mr. Deland, in whose possession I found the fish, and then ~~con-~~segregated them to the Miller, and ordered them to be sold, and they were sold immediately, which was about 1. o'clock p.m. on the 21 day of November to John Davis Fish Dealer, for their full value. -

I have not yet taken proceedings, simply, because your letter and ~~findings~~ ^{will} implies that the fishermen at Detroit were, had the time for catching ^{will} extended to the 25. of November. - and as such in the case I believe it now prudent on my part to ask you for further instructions; - Altho' I am free to admit, that in my letter of the 22, Nov. copy herewith, before I knew anything of extending time; I had written you, thus, "When time will permit, I will prosecute all those cases to conviction" - Then there was another reason, I did not do so at the time, was, that I would not take an

Express

Express Messengers off a train, who was or might be in possession of immense wealth, at the time. - - -

Mr John D. Lewis, Express Agent here, has since, on two or three occasions informed me, that he will appear for the Messengers, whenever I thought fit to bring up the cases - for that the Messengers like myself were bound to obey their instructions, and such being the case, the Express Company would not hold them responsible. But would pay the fine. - - -

I will not however take any further action without special instruction from you on this matter. - - The foregoing particulars are now more fully given as requested by you, which I hope will prove satisfactory. -

By the enclosed notice, you will perceive that I used due precaution in my district, for having the White fish law observed. - The notice was circulated from Whitty to Port Rowan.

6, January 1868,

Sir,

I have the honor to send you herewith two applications for leasing the Fisheries at Port Erie for the current year of 1868, and made to me by Messrs Chester A. Harris and John McKinley. —

The proposition from each individual is 25. a year. — I endeavored to impress upon the mind of each that he could fish alternate hauls but to this neither of them would agree. —

McKinley has sent me a post office order, for ²⁵ which I have not yet cashed, while Mr C. A. Harris is willing and prepared to pay me the same amount.

I have come to the conclusion, that the proper course for me to pursue in this case is to rent to both, and let them make alternate hauls. —

I however submit their applications, for your consideration and approval.

Complaint No. 1. Sarnia.

Sir,

Hamilton, 17, January 1868. -

I have been requested, by Messrs Samuel Hitchcock, and Mrs Blacum, lessees of Pt. Edward, fishery to submit for your consideration, and acceptance certain receipts. Copies herewith, as their joint reply to your letter of 9th of January (1868) instant, to Sam^l Hitchcock. - - -

Those documents, conclusively prove that \$100, paid by Hitchcock, and Blacum, to Mr E. R. Jones, late Boley, on the 31 day of Dec: 1866.

is acknowledged in Mr. Russell's letter of the 17,
January 1867. - herewith a copy of letter. - I saw
Mr. E. R. Jones myself personally on this subject,
and I hold at present in my possession, the ac-
knowledgement from the department for \$110, in
which amount is included the second \$100 from
the Messrs. Hitchcock, and Blacum, for the point Ed-
ward fishery for the year 1866. - So that as re-
gards the balance of \$100, which your letter to
Mr. Hitchcock of the 9th of January represents
as still due for the year 1866, appears to be now
set right by the production of the copies of the
documents, I herewith send you; and for further
particulars, I beg to refer you, to Mr. E. R. Jones
letter of the 2^d of January 1867, to, and in your
department on this head. - - -

Your letter of the 9th instant, to Saml^r H^r of
Sarnia, further says - "And that no other payments
have been made for 1867." - In answer to this alle-
gation, I have to report, that I found a receipt
endorsed on their lease for \$100, in the hand-
writing of the late Surveyor, James G. Babey, as I
was informed, a copy of which I send you. -

And as Mr. Babey, was the authorised Sur-
veyor of the department, on the 6th day of July
1867. - the Messrs. Hitchcock, and Blacum,
pray! that no blame, be attached to them
on this head. -

The above is one of the trifling complaints
to which, I had my attention called on the other
day, at Sarnia.

I beg most respectfully, therefore to re=
commence that, if after consideration, you ar=
rive at the same conclusion that I have, -
that is! that Messrs Hitchcock and Slocum,
have paid their rent in full, for the years
1866 and 7. - You will be pleased to exon=
erate them from all further liability hence=
forth, on this head..

Sir, 17. January 1868,
I have the honor to report for your in=

for sale, in the blanket place there, and
in the possession of Mr John McDonald,

I had McDonald accompany me to be=
fore L. Laurason Esq J. R. Police Magistrate
who on hearing the pros and cons: adjudged
"that Mr McDonald gave sufficient excuse
"to exonerate him from the penalty of the law."

It appears by McDonald's statement that
this deer, was sent him to sell, about the
middle of December last, by a Mr Brown
of Samia. - He was not aware that the
act regarding deer, expired until the 1st of
January, and he produced the copy of a

proposed act, introduced ~~by~~ some years past,
by the Hon: W^m Macdougall to this effect. - but
which never passed the House. -

Complaint, No: 3. Sarnia.

Sir,

17, January 1868. —

I have the honor to report for your info — that on Wednesday last, the 15th instant, at Port Sarnia, — Josias, an Indian, sold to James Dawson, Esq. J. P. of Sarnia, a saddle of venison, and to Mr James Kelly, Store-keeper another saddle of venison, the same being a violation of the game law. — — —

While securing one of these to take it before the Mayor Mr Davis. — The Indian Josias, loaded the other took it into his sleigh, and drove away with it, together with wild Turkey, and other game. —

Mr Dawson, gave the Mayor, the necessary excuse, when I abandoned the prosecution of him.

Now as regards the Indian Josias, I mentioned the circumstances to Mr Robert McKenzie, Superintendent of Indian affairs, who agreed with me that it would be a very good lesson for the Indians, to prosecute Josias, I await your orders on this subject.

The Indian Reserve, Sarnia,

Sir,

18 January 1868

In your letter of the 4, January with. (You say! -
"The particulars in seeing how the fishing at the Indian
"Reserve is carried on; - Find out any complaints
"or abuses that exist, and make any suggestions
"which may seem to you advisable for the protection
"and regulation of those fisheries". -

I have the honor to report for your information, on
this matter as follows; The fishing here, is carried on
by means of small seine, or drag nets, either by
the Indians, or in mixed gangs, of Indians and French
men, and by Americans permitted by Indians to
fish on this Reserve. - -

The fish taken in Spring is pickled, and
the fish taken in the fall of the year is herring. -

The pickled in all cases are sold fresh to agents
at Port Huron, who ship ^{them} by steamer to Detroit and
Cleveland. - - The Indians sometimes dispose of small
quantities fresh, to the store keepers in trade. -

The herring taken by the Indians &c &c. &c,
on the Reserve in the fall are sold part fresh,
about the neighbourhood, while the greater
part are salted down and packed in half
barrels and then disposed of principally
to the storekeepers, who furnish them with
salt, empty $\frac{1}{2}$ barrels for packing the fish in;
material for their nets; and with provisions
for their maintenance and support. Each fishing
station in this reserve has a shanty and net
reel erected about the place, where the net
and fish are hauled in; on the bank of
the River. -

The price obtained for each $\frac{1}{2}$ barrel of herring is about 4.50. I understood however, that it is the store-keeper and not the Indians, who reap the benefits, ^{profits} in those sales. —

I ascertained that some of the Indians disposed of their right of fishing on their stations in the Reserve. — For instance to John Robinson an American, from the other side of St. Clair River, to Joseph Savoy, and John Yornie, resident fishermen. —

I believe, and I heard, that no person goes on the fishing at the Indian Reserve without the consent of the Indians. — — —

The return of fish taken on the fisheries, Indian Reserve; then employed, number of nets used, and boats engaged thereto, you will please find herewith. —

I give you this return, separate by itself, that you may fairly judge, this whole matter yourself. —

I may further state that I saw Mr. Robt. McKenzie, Supt of Indian Affairs at Sarnia, on enquiry, he informed me the Indians had no complaints to make, nor had he any to make in their behalf, so far as regards the fishing in the River St. Clair, in front of the Indian Reserve. —

I may further add, that I ascertained that no leases have ever been issued, nor taken out by Indians nor any other person from Sarnia to Baby's Point. —

I have therefore to suggest, for the better carrying out of the fishery act, and regulations,

that no person be allowed in future to fish in the
St. Lawrence River, between Larnier and Babes point, un-
less they are licensed to do so. - -

For instance, the Indians, cannot fish according
to ~~the~~ a special clause in the act, unless they have
a lease to do so. - - See sub sec. No 8. of section
No. 17. - Thus! - "Provided the Commissioners of
" Crown lands, may appropriate and lease certain
" waters, in which certain Indians shall be al-
" lowed to ^{catch} fish for their own use as food in and
" at whatever manner and time are specified
" in the lease" -

And again, according to the order in Council,
dated, Ottawa, 26, of April 1864, "Fishing by
" means of nets, for the purposes of Trade, and Com-
" merce, except under leases or licenses from the
" department &c. &c, is prohibited in the waters
" of Upper Canada" -

In conformity with the law, so plainly laid
down, I have no alternate left me, nor hesitation
in recommending that the same be put in full
force and effect, between Larnier and Babes
point for the year 1864.

Americans fishing in Canadian Waters. —
Sir, 18. January 1868. —

In your letter to me of the 4. instant, you say?
“Learn at the same time, if Americans from the op-
posite side of the St. Clair river, are in the habit
of fishing on our side and where?” —

In reply I have the honor to report that
several nets, the property of Americans from Port Huron
some say as many as 30 nets were fished last
spring for pickerel in Plympton bay, right
in front of Mifs Laurens and several fish-
ing stations, two of our fishermen. —

They went from 5 to 8 miles up the
lake on our side. —

Mifs Holland Sageman, and Lord of Pt Huron
were names given me, as the only ones known to my
info and there were others fished there. —

Mifs Joseph Bafette, and — Stone, Americans
fished below Marenton, An American fished below
Fishes wharf, John Robinson an American fished
in front of Indian Reserve, And several Americans
fished at Walpole Island, opposite Peabody point
all in St. Clair river. I have &c.

Sir,

18. January 1868.

I have to report, that the several lessees of the fishing from Point Edward, and up toward Kettle Point St. Clair River and Lake Huron, complain to me that they are not dealt fairly with; for that while they, "the lessees" pay rent. The Indians, are allowed to fish; Americans are allowed to come into our water and fish: Frenchmen are allowed to fish: Irishmen are allowed to fish, besides ten or twelve persons are allowed to fish at the mouth of the Riviere aux Sables Brewster's Mills &c. &c, who pay no license and who under sell there in the fish market of Detroit and Cleveland.

At their request, I bring this matter under your notice; I may also mention that from surveys made by me, I find that for 25 miles down the river St. Clair, from Sarnia to Pelee's point, no license is paid altho there is 15 or 20 different fishing stations, where fish are caught in abundance, for trade and commerce. My fish returns from this locality will prove to you the correctness of what I say.

I was offered \$400. a year for the fishing in front of the Indian Reserve, a distance of 4 miles along the St. Clair River, from Sarnia to Cordova.

There is only one man a Mr Geo. R. Taylor, who paid rent between Kettle Point and Goldeneth - Mr E. R. Jones, late Oversee, was by inf^y on this head.

In conclusion I beg most respectfully to recommend that the attached order in Council, be enforced and carried into effect at those places I have referred to. - This will allay the discontent, at present existing in the minds of those licensed fishermen. -

The fact as I found them, I respectfully submit for your consideration. -

Stag Island &c, fishes. -

Sir,

18 January 1868.

In reply to that part of your letter, 4, January, directing me to enquire, "What fishes are caught on 'at or about Stag Island &c, &c, and under what authority'?" -

I have the honor to report for your information that I found on enquiring that Mr Charles Conway (a Frenchman) fished there last fall, he lives at present at Comma; he had authority given him by Mr S. R. Ford, Atty, and Mayor elect, of Samia.

I did not see the man himself, but was speaking to his landlord, where he resides, who informed me, that he rented the fishes from Mr Ford, and intends to fish there again next spring for pickerel. -

I saw Mr Ford afterwards in his office at Samia, who informs me, that Stag Island belongs to Mrs McComb, a widow lady, for whom he acts as Agent, and he claims exclusive right

to the fisheries. I asked to see the original patent from the Crown, but Mr. Yates told me he had never seen it himself. Several persons with whom I conversed told me the facts ^{own} over the fisheries.

At Eagle Island, Crown property no person fishes. At Walpole Island, opposite Baby's point, Indian Reserve! Americans fished last fall, and without any authority, there to-day, and away tomorrow. I did not go across the river to the point where they fished. I saw the place distinctly from Baby's point. Mr. James Menton, Post Master, at Baby's point, gave me this latter information.

Yours, G. Mitchell,

Complaint No: 5. Lake Huron,

Sir,

18. January 1868.

I have the honor to apply to you for a 9, years lease of the fishing grounds occupied by each of the undersigned fishermen. - The stations are all situated on Lake Huron, between Point Edwards and Kettle Point. - I did not see them all, but the application was made by two of the party, in behalf of themselves and all the others. -

They are at present, or were last years lessees of the fisheries they now apply for. -

I cannot say anything about the rent they should pay, as I am not conversant sufficiently with what they apply for. - I believe however, that it will tend to allay a little discontent springing up in the minds of those fishermen by your granting their application. -

Complaint No: 4, Pt Edward. -

Sir,

18. January 1868,

I have the honour to report for your information, that on visiting point Edward &c. &c. the other day, I found that fishing for pickered commenced there about the 15th day of April, and terminate about the 1st day of June in each year: This is (about 26 days) contrary to your order in Council, which states "bass, pike, and pickered shall not be taken between the 5th of May, and the 1st day of June, except by angling."

I explained this to Mr Sam Hitchcock, one of the Deputes there, he imagined, he was acting according to law and he produced the pickered bill of the Act, pointing out to me the authority under which he used not only he but all the fishermen from point Edward to Walpole Island were fishing by. -

I send it to you herewith, having cut it out of the book -

Now it does appear to me, that the close season, is the only and great spring pickered fishing time, at this place, and all the fishermen have enjoyed the privilege, without let or hindrance, ever since the present fisheries act, was passed, neither over nor any person else has up to my coming there been hinted to the fishermen, "that to catch pickered, between the 5th of May, and 1st of June except with hook and line was illegal. -

I do think however, that to enforce the laws, the close season, "as it now exists", on one side of the St. Clair river would be to break up the pickered fishing altogether. -

The Americans carry on the pickled fishing in Michigan, on the other side of St. Clair River. - Their best fishery is right opposite Point Edward, near the Light House. - and one of our fishermen Mr. Walter Slocum is one of the leaders, and the principle competitor that Messrs Hitchcock, and Slocum have to contend with, in the fish market. -

I do not think that to allow pickled to be caught in future, as they have been, during the past, ~~years~~ every year since the present fishery ~~has~~ become law will in any manner lessen this species of fish. - - The pickled are only taken every spring (at the time mentioned) while ascending the river to Lake Huron their favorite place for spawning, and never again until the following spring.

This take of pickled extends from Point Edward, and opposite side of the St. Clair River, down as far as Walpole Island. - These fish are sold fresh in the Detroit and Cleveland markets. My return of fish caught will in its proper place give you all particulars. - -

I recommended my remarks on this pickled fishing to your favourable consideration, and for approval.

I Have &c

Sir,

20. January 1868,

I beg most respectfully to draw your attention to the several wharfs erected in the St^{ts} Clair River, placed there for delivery on, and sale of wood. - Some of those are old, and decayed, and not in use, and all those wharfs, I look upon as obstructions to fishing in this stream. -

I consider all the old wharfs not in use should be all removed, and no more new ones be constructed without the sanction of the department. - Several persons from Sarnia to Babo's point, claim title to the water in the river, because their land comes to the water's edge or did do so heretofore. - I may here mention that for nearly $\frac{3}{4}$ of the way, the public high road, as I found it runs along the bank of the river. -

I strongly recommend that every facility be afforded by the department to protect the fishermen in St^{ts} Clair River from all unnecessary obstructions of the kind herewith described.

Hon P. Mitchell

Baby's point, River St. Clair,

20. January 1868,

Sir,

May I be permitted to report for your information, that two years ago, in a ^{seize} hauling ground situated in front of the Messrs McDonalds of Sombra, near Baby's point. - Mr George Clarke from Detroit, rented the hauling ground for the spring pickled fishing, for one hundred dollars a year from ~~the~~ Mr McDonald. - The average take per year, up to that time was about 3000⁴ lbs per year. - The reason for this falling off in the take for the last two years, is to be attributed to the fact, that Mr James Mentore Esq cleared a fishing ground in front of lot F, in the 5th Concession of Sombra, farther down the river, and nearer to Baby's point, than McDonalds fishing and by which the take was cut off from McDonalds.

The Re-Omes, who came from near Sandwich, last spring, and fished there, paid Mentore \$25, for the privilege they enjoyed. -

I would have no difficulty in leasing all those fisheries, if empowered to do so, by you.

Having submitted your application, for the fishing grounds at Port Eric, to the department, I am instructed to inform you, that as you have been each of you in the occupancy of those fisheries heretofore; the department consider you have about equal rights to the privilege in question. —

I therefore beg to inform you, that you will have to take out between you a joint lease; and in case you decline to do this, then the only alternative remaining with me is, to put up the fisheries to the highest bidder.

This I am determined to do in compliance with my instructions, and shall invite other fishermen to be competitors.

I beg therefore to notify you and each of you, the course I am determined to pursue so that you may consult each other in the matter; after which please write me of the result.

Sir,

3. February 1868.

I have the honor, to receive your letter of the 29th of January last, ("Copy herewith") by which it appears, I am in debt to the department \$4.55, which is not the case. —

It is true! My Whitchee, made on the 28th of October, an advance of \$200, but the receipts I signed in duplicate sent me ~~filled~~ from Ottawa filled up and returned on the 24 of October, will prove that \$100, was an advance of Salary, for half year ending on the 31. of December 1867. —

Please refer to my letter of the 28th day of October, ("Copy herewith")

Will you be pleased to make the correction, and remit to me a balance according to the fact as it appears of \$119.704.

I hope no deduction whatever, will be made in my apts of \$236.45 for quarter ending 31 day of December last. —

From the Commencement to the end of the quarter, it was all hard, very hard work. —

I owe some of the money still, and I am accountable for it please send me the \$119.70 soon. —

Pickled and coarse fish.

Sir,

6 February 1868.

In your letter of the 31st ulto, You say -
"I should like to have your opinion on the desirability -
"nets of making any close time for pickled."

In reply, I have the honor to report for your information, that I altogether agree with the opinion expressed by the department, based as I find it is upon practical and personal experience. - -

There should be no close time for pickled, hogs, pike, mullet, suckers, sturgeon, cat fish, nor any of the coarse kinds of fish. - Certain places might be set apart; for instance: similar to the Burlington Bay, and Dundas Marsh; where nets of no kind shall be used; except as regulated by law, or the department. - -

I think Mr. Whitaker will remember that he and I discussed the question at some length, on the 16, and 17, of April last, at Ottawa. -

The conclusion we then arrived at, was that there ought to be no close time. - How frequently have I stood by, at Niagara, between the 5th of May, and the 15th day of June when splendid pickled, hauled in by the Sars, were returned again to their native element, "because in close season", while our neighbors at the same time, on the other side of the river Niagara, were catching them whenever they pleased. -

Except in small numbers, Niagara is the only place in my district, on Lake Ontario, where pickled are caught in quantities. - -

At Port Erie, they are sometimes caught in numbers, at Turkey and Long points, they are large and sometimes numerous. In all the rivers running into our lakes; pickeral and all the other rough kinds of fish, abound except prevented by the mill dams, from ascending the streams. -

But it is only at this particular season of the year springtime, when the waters are high, and discoloured, that they are to be found there. - -

I would not by any means have Subsections 5, 6, and 7, of section No. 14, effaced from the Fishery Act. -

My motto is, let every person who catches fish in a net, pay in his quota to the department as license fee. - Then our Licensed fishermen will have no cause of complaint, - person fishing under the pretence ("for their own use" which in one instance, I found was sanctioned by the department, at Walpole, Lake Erie, -

I feel gratified indeed, to the department for asking my opinion upon the subject, and the more recent knowledge I acquired at Samia, respecting the habits of the pickeral, convince me, that it is not necessary that we should have any longer a close season for pickeral. - And as regards pike bass mullet suckers &c. &c. ~~ad~~ infinitum, what are they!!!? - The places to take them, can be always regulated by the department; and the use of nets be granted for taking them

or otherwise, at the discretion of the department. -

In my report of the 1866, of January last I said
(and I then referred to Pt. Edward and the St. River)

"I do not think, that to allow pickrel, to be
"caught in future, as they have been since the past,
"every year, since the present fishing Act, became
"law, will in any manner lessen the species of
"fish". -

I intended to imply, by this paragraph that
we should have no close season from Pt. Edward
to Peabys point - and I now add, from Whitty
to Long point - In fact none in the Province
of Ontario, but what can be regulated by a
license. -

I have therefore much pleasure in re-
commending that the present close season for
pike, bass and pickrel be abolished. -

The privilege granted last season by Mr Whitcher
to catch pike, bass, mullet suckers &c. at two given
points of B. bay at the beach - ^{was to} ~~give~~ our fishes -
now a great boon which I can assure you it was
much needed, and I ~~am~~ am satisfied they did
not abuse that welcome privilege - Our fishermen
with all their faults, ^{I find} are sometimes grateful. -

Sir

I have the honor, to receive yours of the 31st ulto, respecting the indian ("Josias") and the two saddles of venison, seized by me at Samia, on the 15th of January last, for a contravention of the game act. - In reply I beg most respectfully to report all particulars then omitted now more fully: I did complain to Mayor Davis on the spot, but I mentioned that before proceeding against him, I would report to you; hence my letter of the 17th of January last asking for instructions. - - -

On the day referred to, I was walking up the principle street of Samia, when I observed a splendid saddle of venison on a stand, as if exhibited for sale, on the side walk in front of Mr James Kelly's store. - I seized this saddle, went into the store of Mr James Kelly, asked him if the venison outside was for sale, his reply was, that it was sold, and he produced one another saddle, he had a few minutes before obtained from the Indian "Josias" for a dollar, the Indian owed him. - I gave the saddle I found inside the store over to Mr Kelly telling him who I was and that I held him responsible for it until I saw the Mayor, Mr Davis, and reported the matter. -

Mr Kelly had agreed to do this and Mr Samuel Hitchcock and I were together outside of Kelly's door when Josias popped into the store and I did speak to him, about his breaking the game act, his reply was that he would break my nose for me; - Mr Hitchcock whispered to him who I was, and gave him advice, as I subsequently heard. - - A moment afterwards the Indian "Josias" took the saddle of venison from the store and drove off, as I have already stated to you, in my report of the 17. January last. - -

On my taking the saddle of venison I
found in the street to the Mayor's office I met
James Dawson Esq^r J. P. a Magistrate, and
Reeve of Sombra there and he exclaimed by ad-
mitting out in words openly, that he had bought a
saddle of venison that morning from the Indian
Josias, not thinking for a moment, as you say, ad-
dressing me, and as he expressed himself, that the law
terminated last night. -- The saddle of venison then
in my possession afterwards was admitted to be his
and the same, he had bought same morning from
the Indian Josias. -- As the Mayor Mr Davis had
not then yet arrived at his office, I left the venison
there, until he would arrive I having other business
to attend to in the mean time. --

I got thro with my other business, and in the
afternoon, was returning from St Edwards, when I met
the Mayor; And went into his office, and reported
all the particulars herein related. --

The Mayor on hearing those particulars and it
being only a free horse after the act, did come into
effect, did not think it necessary to impose a fine
altho mind you, Mr Dawson, had nothing in ex-
cuse beyond what I shall here relate to palliate
his crime, and was willing to pay a fine, if the
Mayor thought fit to impose one. --

"Mr Dawson's excuse was that he acted
altogether thoughtlessly in the matter, at the
same time alluded to a desire expressed by his
wife, then ailing, for some venison?"

An impression, is abroad that Indians can fish, and shoot, with impunity, that the game, nor fishing acts, dont affect them, and such was the excuse given me by Mr James Kelly, at Larned. - An excuse to palliate his offence. - -

Under instructions from Mr Whitches, I am empowered to act, as in this case at all times even out of my own District, as Larned was. -

I never shut my eyes on anything contrary to law in the discharge of my duty. - But as this is a case of two deer saddles of venison, in which an Indian "Josiah" by name figures conspicuously and having the case of another deer before my eyes and to which my attention was again only recently before drawn, I considered it my duty as I have been invited (by Mr Whitches) to ask for instructions, which I have done in the latter part of my letter of the 14th January last. -

Sir,

I have the honor to apply for a nine years lease of the fishing, between Mumber Pt. and the cut, Toronto island, in behalf of Messrs David Ward, George Durman, and Patrick Gray, the present lessees; to be at the rate of \$60, per year, payable in advance, and to extend into the lake for ten miles, together with all the privileges heretofore granted them, of fishing in the ponds for rough fish in the spring of the year. - &c. - &c. - &c.

Sir. - I have the honor to apply to you for a nine years lease for Mr Joseph Perry, of his fishing and a piece of the beach, in Sault Ste Marie on Burlington beach, Lake Ontario, already granted and sanctioned by the department at a rental of fifteen dollars per year, payable in advance.

The piece of the beach alluded to, is for garden purposes.

I have the honor to state for your information that application was made to me on Saturday, by Messrs Sam^r Forsyth, and Fred^r Monison, to rent the Wendell Marsh, for fishing ("angling") having in connection therewith, the entire privilege of trapping mink and muskrat, shooting wild ducks &c. &c. &c. —

The applicants, are responsible men, own property on the marsh, are old trappers, have trapped here for years past, and now when they find other trappers coming from a far distance, who kill off the furbearers, have applied to me to rent the marsh for a term of years.

In making this application, I am only influenced, by one motive, that of having our mink and muskrat preserved for a beneficial purpose. — Latterly mink skins sell for \$4 each, muskrat 3 1/2 of a piece. —

They occupy a place of trade, in the business community of our Dominion. — — —

Like our game, are being killed off, and if not nurtured ~~and~~ preserved, will be all exterminated in a few years. — Forsyth, and Monison intend to do this, they will trap none for a couple of years, they will let the animals increase. — — —

If you sanction this application, I will arrange the matter to your satisfaction, and for the benefit of the department, and the Community at large.

At present the marsh to lease would not be worth much, to use a common phrase, it is nearly trapped out, but in a couple of years, the lessee could afford to pay 50 or 60 dollars a year, for their privileged lease: ("after two years.")

The Bygones Canal, from Burlington Heights to Dundas runs through this marsh; and the Canal together with the Dundas river, and a few shallow ponds of water interspersed there through is all the water (open) worth alluding to, it is a sedgey, and grassy, floating bog marsh. —

Mr. Whitaker will know something about it; In early winter after shearing corn = mares it is good. —

If approved of by you, can be rented to the applicant for nine years. —

In taking up my annual return of fish caught for the year past, at Niagara, I found the gill net fishermen there, stood on their dignity, and would not give me any return of the fish they caught in American waters. - They have their reels, nets, boats &c. on our ground, they land their fish, and sell them in our dominion, and refused to give me a return of them, altho assured by me, that the fish would be returned as the case really was! - Something might be introduced into the new bill to meet cases of this description. - Mr Pat Hand, an old fisherman has repeatedly assured me, the white fish, were always caught in Canadian waters. -

Now, I have been thinking over this matter for some time, and I really believe, that in future gill net fishermen at Niagara (even in American waters) should not be allowed to commence fishing at Niagara, until their fishing terminate there. -

My belief is, that gill net fishing for white fish damaged the seine fishing there last season. -

The seine fishermen complained to this effect; Four of them pay me thirty dollars each, per year; and they deserve, as well as deserve some attention on my part. -

I am come to this conclusion from my own personal observation as well. - For instance except in one particular place, white fish hug the shore at night, while they are out in deep water in day time. - This one particular place is the

Thomas Elliott fishery, a projecting point in deep water, and where the white fish are caught in the day time. . . .

I shall at all events under your sanction and approval, only allow a limited number to fish white fish gill nets this season at Niagara; - none only but those who are residents there; and I do indeed believe that not one of them, not even those who reside at Niagara, should be allowed to white fish gill nets, until the fishing terminate. . . .

Please accept the foregoing as my view at the same time every thing is submitted for your decision.

Hon: Peter Mitchell,
Ottawa.

Sir,

17. Feb. 1868.

I have the honor to receive your letter of the 29th of January, respecting my disbursements for quarter ending 31. of December 1867, together with cheques for \$95.45, the balance then due, and for which receipts are signed and sent you herewith.

I am sorry indeed to find voucher No. 3 is remarked upon, but for all time to come; will avoid falling into such ~~an error~~ a similar error. —

The simple fact, of the case was this; and you will find my diary corroborate this fact; from the 11th to 14 of November last, I was at Lake Erie, travelled 240 miles, and done my business. — where my authority was set at open defiance, by some of the fishermen, I was threatened, and abusive language heaped on to me by reckless, thoughtless persons, fishermen there. — I made up my mind there, and so I told them, that I would return again, when least expected, and put the law in force against them. —

From the 14th to the 27th of November, I was constantly employed, see my diary, and ~~having~~ being determined to put the law in force ag^t all delinquents, I started to Lake Erie again on the morning of the 27th of November, and it was only about 9 o'clock am on that morning, after being out the whole day and night before previously, that I went to the ~~Union~~ office, and got one hundred copies of the different forms alluded to, taking with me as many copies of such as I required. —

This was the first occasion during my servitude as an Overseer, that I went to the expense and outlay of getting forms of the description referred to. -- The nature of the duty, and the offences, required promptness and energy on my part, and I find I travelled 158 miles in four days, and had 15 persons summoned up for contravention of the Act. And I used the forms remarked upon, and have abundance of them on hand, to last me for a long time to come. --

I am very sorry, I did not apply to the department, ever ready to assist me, instead of getting them printed here, but as I never had occasion to use forms of the description before, I hope under all the circumstances of this case I am not so much to blame.

Dear Sir. - Yours of the 11th instant, I did not receive until yesterday, as I was absent from home, being in the state I, and others are much obliged to you for taking up this matter with respect to sluices not being on the Mill dams between this, and the lake. Now the dams are three in number, namely, dam at Cashmies, owned by James Gardiner, the dam at Kilworth, in the township of Lobo, owned by Captain Fred^{ic} Cook, and the other at Halls Mills, now called the village of Boyrou in Westminster owned by John Somers at present residing in California, but at present in the hands of Jerry Robinson who has a power of Attorney to act for him. Mr. Cook, the lawyer here transacts business for this party. - My dear Sir, You will confer a lasting benefit to London, and surrounding Country, if you can make those parties have their dams made according to the Act of Parliament, hoping to hear from you soon. - - -

I could not get the book you mentioned from the party. - With kind respects to self and family.

Sir,

In reply to your letter of the 31, of January last, copy herewith. - I have now the honor to enclose for your information a letter I received on yesterday from Mr Henry S. Robinson, a gentleman and an old resident of London, furnishing the fact of the Case, and now submitted for your consideration.

I myself lived in London from May 1844, until April 1851, and at the time I left, and during the entire period; the river Thames abounded with black bap, pickrel, and speckled trout, all the year round; and in spring time, with sturgeon, mackerel, mullet, and all other rough fishes - at present, chiefly in consequence of the mill dams there is no fish. - -

I have therefore the honor to recommend that I be instructed to serve the Mill Owners or Occupants of the several Mill dams, with the necessary notices to compel them to construct fishways therein according to your approved model, and as the laws provide they shall.

I have the honor to report for your information that on visiting Port Erie, fishery on yesterday, I found several persons with landing nets, catching the small fry of fishes, in the Niagara river, to use as bait on set lines to catch fish. - You made reference to fish of this description, in your letter of the 26th of December last, and to this I replied on the 1st of January last; You replied again to my letter on the 16th of January. - - -

I now find by personal observation on the spot, that large quantities of the fry of fishes. - are taken daily, at this season of the year, in the manner, I have just described, half a dozen of these are placed on each hook, so diminutive are they. - A number of persons are engaged at present time, in this description of line and hook fishing. I saw a water pail full of the small fry bait, in the possession of Mr. Charles A. Harris, our licensed fisherman at Port Erie. Mr. Harris calls these minnows, but I differ with him; they are most undoubtedly, the small fry of large fish. - The river at Port Erie, is literally swarming alive with them, and they are dipped out with the landing nets. - - -

Last summer I made complaint against the night line, and set hook fishing carried on in Lake Erie, above Port Erie, and at Long Point because the licensed fishermen complained of those persons spoiling their markets. - - -

Catching fish with set lines and hooks, a thing heretofore, was extensively practiced before gill fishing became the order of the day. --

When this fishing is carried on, near Fort Erie the water is too rapid for nets. The Americans set their long night lines on our side also. And it was only in the early part of this week, that three of them, while so engaged were drowned, and their bodies have not yet been found. --

This description of fishing is extensively or to some extent, carried on at Fort Union, Niagara, Fort Erie and Long Point. --

There is no provision made in the Act to control it. -- All the persons fishing at Fort Erie, are unlicensed fishermen except Mr. Chester A. Harris. --

Mr. Charles Scoble, the Reeve of Fort Erie a short time since, fined an American, seven dollars and costs; for catching the fry bait on our side of the Niagara. --

With profound respect, I submit this matter, for your deliberation and consideration, after which; I hope you will be pleased to instruct me how to act. --

John W. Kerr Esq.

Manager of Fisheries, I beg to apply through you, for a lease either of big marsh, near Long point, on Lake Erie, or of the "Dunville marsh" for a term of years, say ten years, at present these marshes are almost trapped out, but if they are preserved for a few years, they might be made valuable again.

I should be willing to pay \$20, for the first year, and an increase of \$5, a year after. -- Trusting you will recommend my offer, to the favorable consideration of the Department.

I Have the Honor to be,

Sir,

Your Obedt. Servant.

Sir,

29. Feb: 1868.

I have the honor to submit the application of Mr. J. E. O'Reilly, of the firm of Messrs O'Reilly Esq. & Co. Barristers and Attorneys of this City, to rent either the marsh, between Dunville, and St. Maitland, Grand River; or the big marsh, at the upper end of Long point, for trapping &c. &c. --

I have already submitted for your consideration, an application dated 25. instant, for the big marsh, from Mr. John Anderson, Port Rowan. --

Mr. O'Reilly, is the first applicant for the Dunville Marsh. -- If it was publicly known at Dunville amongst fishermen, and trappers, I would soon have a number of applications. --

In consequence of this I feel a delicacy, in recommending Mr. O'Reilly's application being granted without first apprising by public notice, the resident trappers, and fishermen, so that they may all compete. --

I recommended therefore, that I be authorised to put up the Dunville marsh, for competition, so that residents, as well as non residents, may have an opportunity of bidding. . . .

Mr. O'Reilly, offers \$20. for the first year, with an advance of \$5, per year, or \$425 for the year. . . .

Mr. Whitaker is aware, that all our marshes, are lying idle, making nothing, while the musk muskrat, &c. &c., are being killed off, by wholesale. . . .

Mr. O'Reilly's application, or offer, is a handsome one, and I would have no hesitation, in recommending it to be granted; except for the reasons stated, "as above".

The matter is submitted for your approval please answer soon.

Hon. P. Mitchell,
Ottawa

I have the honor to enclose to you, an application from Mr. Henry Norfolk, Port Whitty, applying for 3 miles east of Whitty Harbour, and ^{near} one mile west to Lyons Creek, together with the Whitty Harbour for fishing purposes. --

Mr. Norfolk leased during last season from including the Harbour to Lyons Creek for which he paid \$5, while old John Pilkington leased the eastern part now applied for at 5 more. --

On the 18th of December last, I was at Port Whitty and saw Messrs. Norfolk and Pilkington, and both then applied for a renewal of license for this current year. --

I cannot therefore now turn round, and recommend all to be given to Mr. Norfolk. -- it would not be fair to throw old John overboard. -- I shall ~~the~~ simply recommend that I be empowered to rent the whole of the Lake Coast and harbours applied ^{for}, and I can afterwards settle the matter between the two applicants.

11. March 1868,

I have the honor to recommend to your consideration the following changes I require to have made in the size of meshes of salmon trout and white fish gill nets; and also in the size of the meshes in Centres of white fish seines. --- I hope you will be so good as to introduce these size meshes into the new fishing Act. --- please see sub sec. No. 2, and 3 of section No. 14, in the present Act. ---

In drawing your attention to this matter, I am speaking from personal experience, and all the fishermen in my district will back me out in my statement. ---

1st. The meshes in the Centres of White fish Seines shall be two inches square, or four inches extension measure. --- By establishing this as the regulation standard; White fish ("Small one") will be protected. ---

2nd. The gill nets, for catching salmon trout, shall have meshes of not less than six inches extension measure. --- I am aware, that several fishermen in my district fish gill nets having eight inches extension measure. ---

3rd. The gill nets, for catching white fish, shall have meshes of not less than five inches extension measure. ---

Sir,

18. March 1868,

I have the honor to receive from you, the petition of James Harris Jr., of Charlottesville, Va., and signed by two other different persons, charging me with "Secretly leasing the Fisheries at Turkey point, to Messrs David Jackson, Joseph Jackson, and Woodcock." -

In reply, I have the honor to report and explain the facts to you, and in doing so, you will find that I give the petitioners assertion a flat contradiction. - I do nothing secretly! - I do nothing out of my own head!! I submit all applications to you, and I then act, in all cases according to your instructions. - In this case attempted to be highly colored and magnified, by the petitioners, a fisherman, who according to his statement "many years" (17) and he does not say he ever held a lease. -

The petitioners, I may mention for your information is a squatter on Turkey point fishery reserve. - I know where he lives. I was in house, - I remember to find him at Turkey Pt., on Saturday the 6th of July last, assisting James Crackett, to haul in his seine. On my remonstrance; for Crackett had not then paid his small rent \$5, dollars. James Harris Jr. stated, he did not fish, was married at that particular time, leading a pious life to James Crackett. -

Last year, in January 1867, I had posted, and circulated copies of the enclosed notice at Turkey point, and all over my district, from Pt. Whitely, to Pt. Rowan, but James Harris Jr. did not even apply to me for any license see Copy B. B. -

I had subsequently copies of the order in Council (C. herewith) put up in the neighbourhood of Turkey point, where James Harris Jr. has never applied to me for a lease. - I was made aware that James Harris Jr. fished to the prejudice of the licensed fishermen; they complained of him last season to this effect. - My report copy No: 5, herewith, will prove that I then reported the matter to you. - -

Messrs Joseph Jackson and David Jackson, are sons of old John Jackson, a licensed fisherman, and resident fisherman on Turkey point, and Wm. Snooks is the son of an old Canadian fisherman, and I believe Jacksons son-in-law; and talk of loyalty! old John Jackson served in the war of 1812, in behalf of our rightful King, and country; ag^t the United States. - - When H^d. Jackson & Co, applied to me to rent Turkey point fishing, not already rented; I sent their application to you copy herewith marked No: 142, - In reply, you granted their application, see copy, No: 3. It appears to me, that it is only, when James Harris Jr is threatened with a prosecution for breach of the fishing Act, for he has been already complained of to me by Messrs David, Messrs Jackson & Co, that he gets up a petition and prays, that the lease you have granted may be cancelled, and the fishing be allowed to remain the same as heretofore.

For my own part, I would just as soon send James Harris Jr's application to you, if he applied to me, as I would Melp David Jackson & Co. but I can never recollect ~~anything~~ thing to be allowed to remain the same as heretofore, for the last 17 years. See No: 4. Copy herewith. —

The Communication I sent you, in the first place, and your reply, will explain the matter I send you copies, for that purpose. —

I trust my explanation will satisfactorily prove to you, that there was no just grounds of Complaint for statement set forth in the petition of James Harris Jr to cause you to Cancel a lease already granted to David Jackson & Co., and which appears by their letter No: 1. to be from ~~the~~ ^{low} water mark on the edge or beach of Lake Erie, and extending outwards. — —

If those young men, had not applied for the fishery, James Harris Jr would not have never have got up his petition. — —

David Jackson & Co. have not yet, paid me the \$20, the years rent, but they have given me their joint note, at a short date, for the amount, they have their gill nets to get up. . .

I Have &c.

Hon: Peter Bitchell, John W Kerr

P. S. — Melp David Jackson & Co, wrote me two days ago, stating that certain persons have sent a petition to you, to lease their fishery from them. —

To. The Hon: Peter Mitchell,

The Petition of James Harris Jr.,
of the Township of Charlotteville in the
County of Norfolk, Fishermen &c.,

Humbly Sheweth. -

That your petitioner has resided and
does now reside on what is commonly called
the "end of Turkey point" - opposite Long point
Lake Erie, for the last seventeen years, that
one half or more of the living and support of
himself and large family have been derived
from hunting and fishing at and in Turkey
point marshes, which he your Petitioner
and others are now about being deprived
of, as is currently reported rumored by
the Hon: Your Agent in those matters, having
secretly leased the fishing and hunting to
Ed Jackson Joseph Jackson, and other
strangers, to the injury and prejudice of my-
self and many others of Her Majesty's
loyal subjects in this locality depriving them
of immunities which they have enjoyed
unrestricted since the earliest settlement of
the County. -

I therefore your petitioner prays
that the said lease or leases may be can-
celled and the same allowed to remain
as heretofore, confining the fishing leases
to the Lake. -

And your petition is in duty
bound with everal prayer. -

Hamilton Onto. Dear Sir, after much delay I have succeeded in getting in all the accounts of the fish slide, and having paid the same, I now enclose you the vouchers for your favourable consideration. Hoping you will forward this to the proper quarters, so that I will get refunded one half of the cost according to Fishery Act, ... I suppose you like myself, will be surprised at the cost amounting to \$384.48 altogether, but when we take into account the high wages, I had to pay every one engaged, its no wonder the amount is so large. - You will perceive I had to pay Wesley \$2.50 and boat, W. Smith 2 and board per day, and labourers in proportion. - I have several other vouchers to me, where I am charged \$1.75 per day of course that is where no profit is charged, - I have made no charge. I find it impossible to send vouchers for labour and the men I got from Hamilton, Mr. Lee, sent me up immigrants I could get none here, I had great difficulty in

getting a Team. - Mr W. Lee, and Smith done us good
 service and were cheap men, even at the high wages.
 but I must also tell you that the slide is 10' feet wide
 instead of 7 ft, it goes up to the rock, and timber
 all let into rock, besides we used a large quantity

Sir,

21. Mar 1868.

I have the honor to submit for your consideration a letter which I received from Mr James Polaire of Galt, accompanied with n^o. vouchers, and an account of the cost of construction of the fishway, in the dam at Galt erected by him. - -

The total amount is \$384.48 for material used, and work done in completing the same. - -

I believe the charges are about the usual price and rate, at the time, the same was done. - - -

I have been to see the fishway, and from my own knowledge, and from what I have learned I believe it in every respect, a good, solid, substantial piece of work. - Independent of the expenditure referred to, Mr Polaire himself, who was originally a mason and builder, has worked at it a good deal, still he has made no charge. - - -

You will perceive by Mr Polaire's letter, that he applies for, and he expects to be paid by you \$192.24 or one half the expenditure incurred under sub section No: 2, of section No: 5. Fishway Act. - - -

I have much pleasure in recommending this part of Mr James Polaire's application to your favorable consideration.

Mrs Joan Baldry.

Sir

24. March 1868.

~~21st inst.~~ I have the honor to receive your letter of the 21st inst. about a petition, numerously signed in behalf of Mrs Joan Baldry, of Burlington Beach. - Only your letter concludes with the following sentence: "This matter is referred to you for report"; - I would deny the unfounded allegation, and then, through you call upon the petitioners to prove their statements; and if I did, what a mass they would be all in!! -

The petition, I was informed by the Hon^{ble} Mr. B. Bull, was got up in the City of Hamilton, some miles from Mrs Joan Baldry's residence; and by Magnus Bruce, a tailor. - Mr Bruce, by misstatements, and false representation, induced every one he could prevail upon, "the unwary," to sign this petition. - One ~~single~~ motive, he had in view, was self. - He thus! - "It appears, that about five years ago, Mrs Joan Baldry, was taken ill and on the point of death, as she supposed, made her will, leaving Mr Magnus Bruce (£1000,) she had then, in the bank, beside the public house, furnished! and now referred to". - Mr Bruce is no relative of Mrs Joan Baldry's, merely a visitor occasionally, on Sundays. -

After I was first appointed, scandal Mr Bruce, made overture to me, if I would take James Waddell's fishery, and this back lot of land, referred to, from him Waddell, and leave them to Mrs Joan Baldry; of course I spurned his improper overture! - - -

3

But setting all this aside, I will now present to you the facts, as they are. —

It is now true, that Mrs. Joan Baldry, has paid all the rents due for land on the beach. — What will the petitioners say; when they learn, that Mrs. Joan Baldry, did not pay rent, for her holding, for the years 1862, 1863, and 1864. — And she got into a row, with James Waddell, and refused to pay rent for the year 1865. — Mr. Whitehead will remember that he had to come to the beach and settled the matter in dispute. — And again how would the petitioners feel if they knew, that I told you, that Mrs. Joan Baldry paid no rent for the year 1867. — I did refuse to give her a license last year of James Waddell's holding, because I was instructed by the department to do so; but I allowed her to fish for herring, and suckers, last spring, with the other fishermen, under Mr. Whitehead's sanction, and after the licenses were issued, she had the privilege of fishing her seine on Mr. Anne Sherburnell's station No. 17, and I did not object to it; — In the fall she made two sets on fishing station No. 22, ~~and~~ ~~was~~ ~~privately~~ ~~to~~ a vacant station, and as I was told privately at the time, caught several hundred of herring. — No. 22, is now leased to Alex. McPherson, for current year. — How the petitioners have been deceived! — fairly speaking, Mrs. Joan Baldry, has nothing to complain of, as regards me, individually whatever.

5

But the back ground, on the south side of her residence, and on which the petitioners say, she has expended some money in improvement. -- The affidavit of Mrs Waddell, and her husband, James Waddell, who swear they have been in possession of this lot of ground, since the month of November 1844, (24 years,) will prove to you, ~~some~~ ^{what} little confidence or reliance, can be placed in the statements of the numerous petitioners. -- These statements on oath, point out fairly and truthfully, the true position of this lot. -- and flatly contradict petitioners words: -- Evidently! the petitioners do not appear to know anything whatever about the facts of the case, they represented under their signature to you: -- The outbuildings they allude to, have never been molested by any one, I don't know what the petitioners mean by referring to the outbuildings at all. --

The petitioners say further! Mrs Joan Baldey, has been in peaceable possession, for the past ten years! It threatened to be taken from her!!.. And in conclusion, the petitioners request; that the back lot above alluded to, &c. &c. &c., be restored to Mrs Baldey!!!

Here are three assertions, or here are three negatives, two are equivalent to an affirmative, ~~and~~ they destroy one another, I cannot understand what Mr Magnus & the petitioners mean by those ^{three} different assertions so contradictory to one another. -- But I do know that Mrs Joan Baldey, is already known at the fishery department, in Ottawa. -- I will hence only briefly refer to her.

The first net, I seized, after my appointment, for a contravention of the fishing act, was the property of Mrs Joan Baldey . . .

And altho, Mrs Joan Baldey pledged herself never to offend again, if the department would restore to her, her net; I gave back the net by order of the department; and the evening of the same day, she broke the law, ~~again~~, and set out the net . . .

I had Mrs Joan Baldey up for fishing on a Sunday. I had William Williamson her nephew, and Richard Coeck, a friend of hers, fined for fishing on a Sunday, with her net, and on her fishing ground, and with her Comrade . . .

And her man Alex; McPherson, I had him fined again, and again!! The last time he was fined \$20, which he has not yet paid, all of which is respectfully submitted.

Lo. W. I.

On this 24. day of March
in the year of our Lord 1868,
personally came and appeared

before me the undersigned Police Magistrate of and for the City of Hamilton, in the County of Wentworth, Dorothy Mary Anne Waddell of B. Beach, in said County, who being duly sworn before me upon the her oath, saith: That she has heard read over the affidavit of James Waddell hereunto annexed and that the same, and the facts therein stated, and set forth and every of them are correct and true. . . .

said this 24 March 1868.

James Cahill

P. M. & J. P. —

Personally, came and appeared before me the undersigned Police Magistrate, of and for the said City of Hamilton, James Waddell, a fisherman of Burlington Beach, in said County, who upon being duly sworn before me upon his oath saith. — That he has heard read over to him a petition of and on behalf of Joan Baldry, of Burlington Beach aforesaid to the Department of Marine and Fisheries at Ottawa, that, that portion of said petition which represents that "the back ground on the south side of her property on which she has expended some money on improvement, and retained possession of for the last ten years". — does not show the true facts. That the facts in reference to the said property, and the possession thereof, are as follows: That in the month of November 1844, he the said deponent purchased the possession

from one James Stewart, who had been in possession for a great many years previously of a Tavern, which then stood upon the ground aforesaid and the right to said ground which was then held in connection with said Tavern. - That from the year aforesaid said deponent continued in possession of the said Tavern, until the year 1854, when the same was burned down by a malicious person who afterwards as deponent has been informed confessed the same on his death bed, but that from the time he deponent first entered into possession of the said ground as aforesaid he always held the same, and considered the possession thereof his own, and during all that time he had the same (leased) and had his root house on said ground, and never was disturbed in his possession until some time in the year 1866, when the said Joan Baldrey, for the first time asserted a right to possession of said ground, and caused this deponent to be brought before a justice of the peace, and fined for an alleged trespass, on the said ground.

That after the decision of the said justice, he said deponent appealed to the then next sitting of the Court of Quarter Sessions for said County, and that at the said time of the sitting of said session the said Joan Baldrey, compromised the matter of said appeal with this deponent, and then paid him the sum of eight dollars. - And agreed not to disturb this deponent in his possession of any said ground any more. - - -

That in the year 1865, Mr. W. J. Whitehead of the
fishery's department came from Quebec to B. beach, afore-
said, and had an interview with said Mr. John
Baldry, and this deponent in respect of to said ground
and then, and there the said Mr. Whitehead decided and
directed that the closing of this deponent, to said ground
were just, and that he should be continued in possession
of the said ground, and that the said ground, was
then and still under lease by him deponent, from and
under the said fishery's department.

Sir,

24. March 1868.

I have the honor to report for your information, that on this day, I found a net "à seine" 80 yards long, spread out to dry, on part of lot No. 6, broken front, in the township of Barton, -

The land is occupied by Mr. Alb^o W. Taylor, Market Gardener, but the net is the property of Mr. Charles Wapen, and from appearance, was evidently fished in what is commonly designated, as Wapen's inlet, a portion of Burlington Bay. . . . The hauling was ~~done on the~~ ~~west side of~~ brought in and done on the west side of the inlet. - Mr. Wapen's property is on the east side of the inlet. - And as I understand it, they caught a few fish for their own use. -

Shall I prosecute? - Of course I did not feel myself justified in seizing the net, rope and boat; altho from appearance the net was used on last night. - Mr. Wapen is a very respectable man; and whenever I see him, he will admit, that a few fish were taken for his own use. -

I have the honor to report for your information, that on Thursday last, at Burlington bay, near the beach, from information I received from Messrs John Gaaffe and Ben-
Joulds, I succeeded in finding four pieces of White fish gill net set in the bay. -
"which is a contravention of the fishing act." -
in one net I found three pike and a black haff, and two speckled haffs. - In two other
nets, I found eleven pike, three black haff
two suckers, and five speckled haffs, in all
27 fish, which I sold to Mr John Davis
fish dealer, on a fit of the department. -

There were no fish in the fourth net. -
I have no doubt on my mind, but Don
McGwynne, a fisherman, is the offender. -
I shall prosecute him this time to Con-
viction. -

4. April 1868. 

I have the honor to report for your in-
formation that on Wednesday last, ^{the 1st day of April} the hearing of
the appeal ag^t the conviction before James Cahill Police
Mag^{te} came up before Judge Logie and a Jury at
the Court House ^{or session} City of Hamilton. -

My reference to my report of the 10th of
December last, you will find that a person named
John Bates, was summonsed up for spearing a musk-
rat through the ice in one of the inlets of Bour-
lington bay, claimed by ^{Wm} Fox as his ^{private} prop-
erty, patent from the crown. Bates was fined
\$5 & costs ^{for this offence} by the Magistrate for this offence.

Against this conviction Bates appealed, and on being tried before Judge Logie and a jury, the conviction was quashed with costs.

I received the answered summons ^{from Bates} to ap-
pear as a witness ^{at 9 o'clock} which I did; ^{Gage however produced me} ~~except~~ the short
account of the News paper report, ^{herewith} will show you
about what my evidence amounted to. I
did not produce any letters or other papers in Court
beyond my letter of the 5th of Decr last, and
your reply thereto dated 8 of Decr 1867. - and an
^{application signed by Gage from John Bates,}
the Wm. Gage is very wrathful because I should
say in my evidence and swear ~~it~~ that the riv-
lets and outlets of Burlington bay, are portion
and part, of the Bay for fishing and game
purposes, ^{and} he has attacked me about it since
the trial for stating so. - He ^{Mr. Gage} may attack me as
much as he likes, and no doubt he will; but
my instructions from the department are to this
effect; - And therein I shall stand firm. -

~~Replied~~ Common Reason will convince any

man that it ~~is~~ ^{two} so, and further that ^{two} Whifages in-
lets are highways ^{on the water to two headroads on the land} to high roads.
And the ~~deaf~~ ^{deaf} in this ~~case~~ ^{case} to the ~~day~~ ^{day} ~~allotted~~ ^{allotted} to those two ~~points~~ ^{points}

claims - it himself. ---

Sir,

4. April 1868.

I have the honor to receive your letter, regarding Turkey point fisheries. ---

In reply, I have to state for your information, that your orders shall be strictly attended to. ---

I beseech of you not to condemn me, unheard, and do not, I implore of you, allow me, or the future conduct of my life, and the duties of my office to be regulated in the neighbourhood of Turkey point, as your Fisheries Officer, by petition. ---

I am bound by my oath of office to obey; "according to the true intent, and meaning of the Fisheries Act and regulations, and in accordance with my instructions". ---

This is the standard to measure my acts by, and I hope sincerely that Mr Whitcher will not allow more to be imposed upon me. - Not more than I am able to bear. ---

Any man can get up a petition from Pt. Roman to Pt. L'Anse, all along Port L'Anse, against the Fisheries Act, or any person placed as ~~far~~ close to it, as I am, but even such persons will still do me justice in these premises. ---

Even Parliamentary candidates who were in favour of the Charter of the Long point Coy at the last General Election were opposed, and only such Candidates like Mr McLeod, of Victoria, who were opposed to the monopoly, as the people there call it, were supported. ---

Σ

P.S. I think it advisable, that Mr. Whitaker should pay a visit to this season, I recommend the matter to his consideration. — John W. Kerr 20/6

And again Mr John Law, J. P., Reeve of Rainham Centre, who tried and disposed of 14 or 15 cases, on the 30th of November last, brought by me before him, for a contravention of the Fisheries Act, as reported to you, at the time was opposed successfully, in consequence; when he presented himself in January last, for re-election at the Municipal election. —

He was turned out of the Council, for upholding the Fishery laws, and not allowing the people to catch white fish in contravention of the Act, a thing ^{they} the people ^{pretended to} say, they were accustomed to do from time immemorial!!!! — And for doing this, in a mild, and gentle manner, John Law Esq J. P. of Rainham Centre, a most worthy, Christian man, was run out of the Township Council, of Rainham Centre, and replaced by another person. —

I shall proceed to Turkey Point, in a few days, lay off the Fisheries, as you order, and which it was my intention to do, in the very way you direct from the beginning, in short, the ladies never asked more. —

After I have done this, I shall report fully. — And you can then condemn me, if you find, I am guilty of any dereliction of duty, but until then, don't I beseech of you be led away, by the petitions that have been presented for a special purpose. The opposition to let this fishery, is not as much, as I expected. — Don't condemn me unheard, it would be unbritish to do so. —

4. April 1868,

I have the honor to report for your information that I have had repeated applications made to me during the past fortnight respecting persons complained of, for duck shooting contrary to the Game Act.

As the game is now under the provincial parliament or government of Ontario by whom this Act, was recently passed, and as I have been credibly informed by Mr. Whitcher

I write to know, if I am to continue to protect the game, as I have been doing before Confederation took place, or shall I give up doing so, altogether

According to Sub Sec; 3. of Section No 22, Fishery's Act, I am obliged to do so, but then that may not now be approved of by you.

I am going to Toronto on Monday next to look after the Fishery on the island and will while there look a little after the duck shooting as Captain Prince the Chief of Police has written me on the subject.

Sir,

27. April 1868.

I have the honor to report for your information that on Easter Monday last, the 13. April instant, Messrs Edward Mitchell, Harry Brinkholder, and Ellick Shales, of this City, proceeded to the residence of Mr. Wallace, lot No. 4, B. f. township of Barton, put up their horse and buggy and informed Mr. Fage as he states, that they had my permission to go over his property, and shoot ducks. -

They did go over Mr. Fage's property, and on their return stated they had fired several shots at the ducks. Mr. Fage was ill at the time, and unable to leave his house. - - -

I only heard of the occurrence a couple of days ago, and having seen Mr. Wallace on yesterday, he communicated to me the facts as herein stated. -

I may here state for your information, that I never gave any authority whatever to the persons named, ^{nor} to any other person. -

And I was quite astonished when the matter was communicated to me. -- My leg is fast recovering and when able to go out, I shall prosecute the trio for shooting and hunting wild ducks contrary to law. --

I have the honor to report for your infoⁿ that on visiting Mr Healey, on the Grand River, yesterday, I found John Docter, and Mr Garland, two Indians, from the settlement, encamped there, fishing. They had a quantity of suckers, and mullet, in their possession, which they had recently caught in a small seine, about 50 yards long. —

The people of the neighbourhood complained to me, that they were catching pike bass pickers and muskonge. — I did not find any. — The Indians keep a pedlar, who take the fish back into the Country, and sell them.

I beg to apply to you for instructions in this case, as they are Indians.

Sir,

16. May 1868,

I have the honor to report for your information that a large number of wild geese, and wild ducks were shot on Long point; this present spring; contrary to the game act. - by the Long point Company's servants, and others. -

At Harry Woodward's house, on the point, there were 9, goose heads exposed to view, and numbers of ducks heads, - and at Peter Price's shanty, large numbers were also seen. -

At Andrew Halway's four geese were seen, and several wild ducks dead, and my wife had his dinner of one. -

Doctor Salmon of Simcoe, Simpson McLeod Esq., J. P. M. P. and Man: Smith of Victoria hunted and John Bakes of Pt. Rowan, and shot ducks in Turkey Pt. marsh, about four weeks ago. I saw two wild geese wings in Peter Price's shanty, last Sunday. - - And in the afternoon when about four miles away in another direction, I heard a shot fired about Price's shanty. I submit the matter for your advice.

I have the honor to report for your information that on Sunday night last, I observed two light jacks near Mr J. G. Spaul's situated in the outer bay, Lake Erie, and one in Rice bay, situated in the river bay, Long Pt Lake Erie. - -

I was informed that Mr Peter Price, was out on Sunday night, and speared a maskwonge 64 lbs weight. - -

I saw Peter Price, on Long point on Sunday last, where he should not be, and he had two maskwonge spears there, and two light jacks, I will have no difficulty in proving these cases. - -

Also, on Tuesday night last, I observed five jack lights in Rice bay, and two in Sturgeon bay, and in coming thro St. Williams on my way to Turkey Pt, I was told Peter Price, and a party of ten went across a little before I arrived there. - I submit this matter for instruction.

I have the honor to report for your information, that on Monday night last, I observed seven light jacks in Secord Bay, Lake Erie, I was at the time in Pt. Royal which is at the head of Long Point Bay, about nine miles distant. -- In each boat, two men are engaged with one light, spearing hogs, pike, pickeral and muskrings. --

Wm. Herold of Vittoria, who is supposed, and well known to be one of them, and his brother Fred⁶ had a muskrings, sixteen pounds weight in his possession, he speared the night alluded to. --

I will have no difficulty in proving these cases but apply for restriction on the subject. --

April last, at the mouth of Big Creek, near Bay, Long Point, Lake Erie, having conspired together at a place called Pt. Royal, came into the bay, and cut the John Andersons pickeral gill nets, a licensed fisherman David Jacksons pike nets, were treated in like manner. --

I Consider that in every instance where the law has been transgressed, and set at open defiance prompt action should be taken to punish the offenders. -- I deem it advisable however, to submit the cases in every instance; for your advice, and instructions, before I took any proceedings.

I have the honor to report for your information that on the 14. instant, I visited Second bay, which is situated in the river bay, of Long point, Lake Erie, where I found a seine about 200 yards, the property of Jonathan Simons, who fishes there; he has a shanty erected there, a number of boats, a pike gill net, barrows for carrying the net, and all the various articles for seine hauling. -

On Monday last, Simons, caught a Wagon load of fish, which he took to Vittoria, and sold.

The fish caught were White fish, Pickeral, hals, and Channel Cat, - John Merritt, West Street & Sons Second, fish, with him. -

Jonathan Simons, fished on Sunday the 26. April, and caught two barrels of fish -

Simpson McLeod Esq. M. P. P., has informed the community, that every person can fish, as they like, I therefore deem it prudent to act cautiously moderate and discreet by asking for instructions.

I have the honor to report for your information, that on visiting Long point & Turkey point this week, I found that the licensed fishermen Messrs John Jackson, James Crakitt, William Snook & Wm. Randall, had been catching & killing hals, pike and pickerel by seine. I conversed with them their reply was, that the fish, were after spawning, and this I believe to be the case. — I believe an earlier period would be better adapted for the close season for this species of fish in this locality, however before I proceed to prosecute the parties violating the order in Council of the 5 May 1866. — I beg to apply for advice on the subject, I believe and I would recommend that the same privilege be granted to our licensed fishermen at Turkey & Long point as has always ^{been} and at present is allowed the fishermen at Pt. Edward and St. Charles River. — The seine and gill net pickerel & white fish gill net fishermen, deserve indulgence of this kind to be granted them by the dept.

With reference to my report of the 12, instant, I now send you the names of the two persons I saw spear-fish, and picked, as I then stated to you in my report. Joseph Pitman, speared the fish, and Joseph Coddman managed the boat. —

I noticed the two young men to appear before Sybil's Kilmaster, at which they did on the morning of the 13, inst, when they pleaded ignorance of the law. —

They promised faithfully never to offend again, and were let off with a lecture. —

Joseph Coddman is in the employment of Mr Kilmaster, the Magt, before whom I brought the offenders, and even he acknowledges, that he never knew any thing of the fishy act before, this all occurred near Pt. Roman, Lake Erie.

18. May 1868,

With reference to your letter of the 8, April last, desiring me to send you a sketch of that portion of Turkey point, which had been applied for by Wm Snook & Co, and granted to them by me, under your authority. - - I now send you a tracing of that part of the map or plan of Charlottetown, on which you will find Turkey point marsh and fishery is situated.

The portion applied for, is situated at the head of the marsh, and runs around the coast and water edge of the ^{inner bay} ~~inner bay~~ ^{dike} ~~dike~~ from lot No. 2, to 11, inclusive, as shown on the plan thus: - - It is dry land for a large distance of ~~length~~, the entire beach around the bay. - I was there on Thursday last, and made a personal examination of the place myself. - - There is no part of the intended fishery occupied, except Mr John Jackson (his meadow) and Jonathan Simon (fishing shanty). James Ferrie, Jr. who petitioned against the leasing lives on the ridge situated ^{not} within $\frac{3}{4}$ th of a mile of any part of the place. - The extreme end of deep hole point is more than a mile. - Bob Woods point, and second bay is still more distant. - Ferrie does not occupy any portion of the fishery applied for. - - Sixteen years ago, the late Mr Stocum - fisherman, of Barrie, fished and caught white fish, all around the beach, in the bay, the

leases now applied for. - As I stated to you in my report of 16. inst. Jonathan Simons, catches considerable fish there, at this present time. - - I never intended to give the fishing license for any other portion of Turkey Pt marsh nor any other part of V. point, save that within the points ^{on the plan} and marked ~~thus~~ ^{on the plan} on the enclosed plan. - "I did however think, not knowing better, that I might give in the trapping in the bargain". "In this I erred, and I deeply regret it". - The leases hope to be allowed two or four chains all around from the water edge of the lake, and I beg most respectfully to submit the same, for your consideration. - I believe it will turn out to be a productive fishery. - - In front of Indian Creek Pt you will please observe on the plan, white fish bar; here a few years ago, these fish were caught in thousands. - - It is only about $\frac{3}{4}$ of a mile from the fishery applied for. - -

The leases also ask to be permitted to go out as far as mid channel, which is about 2 miles or $\frac{1}{2}$ way across to Long point. - - If Jonathan Simons will not take a license of the hauling grounds he now occupies, ~~I shall~~ the law shall take its course. -

Pending your final decision in this matter, I have allowed the leases in the mean time to occupy the fishery; not specifying any number of chains to haul in on. -

The proposed fishery does not include any part of the river waters of Turkey point marsh, as you will observe by the plan. - And thus you will perceive matters have been very much magnified by persons whom I never meant to do any personal injury to. - If the fishery laws are respected by the people, I never trouble them. -

30. May 1868,

I have the honor to report for your information that I learned when at Pt. Union, Huffer's Creek, and Pt. Credit. - That one salmon was caught in the Credit river this spring, in a small sucker net, one at the Rouge in a pike net, set across the stream, and two last season, near the mouth of Huffer's Creek, Lake Ontario. - Six salmon and hogs were seen last fall, in Huffer's Creek spawning, and were not disturbed. - Two salmon were also found dead, at the mouth of the Rouge river last fall. - Thus, you will see essential it is, to prevent persons ~~disturbing~~ disturbing those streams, by spearing suckers or netting them.

I submit the matter for your consideration. -

Hon. P. Mitchell,
Y. Y. Y.

Sir,

30. May 1868

I have the honor to report for your information that it is most essential for the good of the department, that I should as soon as practicable have copies of the Fishery act, recently passed by Parliament at Ottawa. - - also a copy of the Canada Gazette in which the same is published. -

I want to carry out at once the changes made regarding white fish Series. - -

I cannot of course do anything, until your instructions accompany the new act, &c. &c, are received by me.

Sir,

30. May 1868,

I have the honor to report for your information, that on this day, before James Cahill Esq^r J. P., Messrs. McQuyne, Benjamin Goulds, and Maurice Begley of S. beach, were arraigned by me, for having in their possession a quantity of the young white fish, which they were offering for sale in the Hamilton market. —

They were each fined \$2 and costs, for this offence. — And the fish about 200, in number were confiscated, and I did not object to the Magistrate giving them to the children of the orphan Asylum.

I Have &c

Hon^{ble} P. Mitchell

Sir,

30. May 1868,

I have the honor to report for your information, that on visiting the twelve mile creek trail, the Credit River, the Stobiecke river the Rouge and Duffins Creek, which are situated above and below Toronto. — I found numerous persons, farmers, back from the Country, there fishing for suckers, which were taken by them in abundance.

Mr. Calkins Stand, and other licensed fishermen, complain of these farmers, for the injustice it is to the licensed fishermen, as they sometimes sell the fish. —

I beg most respectfully to apply to you for power to prevent persons (unlicensed) fishing in those streams, as undoubted proofs have come under me, that salmon are again making their appearance in the river (above referred to),

Hon^{ble} P. Mitchell,

Sir,

Hamilton 13, June 1868,

I have the honor to receive your letter of the 6th instant relative to certain complaints made by me ag^t certain persons for breaches of the game act, at Long point, Lake Erie. -- I have communicated the facts to the Secretary of the Long point Company. -- I don't think it will be prudent for me to act in a private capacity, for the protection of game, to do so, without a special authority from the Legislature of Ontario would only place me in a position of a public informer, and bring upon me disgrace. --

Altho I do as much as any man desire to see the game preserved and will do ~~so much as any man desire~~ if appointed, still I must have a little self respect; besides, the duty I owe to the Fishery department forbids me to do so, except under authority. --

Hon: P. Mitchell. --

I Have &c. John W Kerr

Sir,

13, June 1868. --

With reference to my report ag^t Messrs John Dykes & others for catching the young white fish, and for which they have been fined. -- I understand the parties have appealed ag^t the conviction, to the Court of Quarter Sessions. --

Sub section six of Section No: 16, of the new fishery act, states "And persons aggrieved by any such conviction may appeal by petition to the Minister, who shall have power to remit fines and restore forfeitures under this act." please inform me, if persons convicted have any other alternative, but that of paying the fine and costs, or of appealing to the Hon: Minister of Marine and Fisheries. --

Hon: P. Mitchell.

13, June 1868,

Sir, I have the honor to report for your information that on this day before Alexander Macrae Esq^r Police Magistrate Toronto, I arraigned Mr Leonard Marsh of Deschêville, a licensed fisherman for catching white fish, with an illegal net in Lake Ontario opposite the township of Scarborough. -- He was fined 3 dollars & costs. -- I considered it advisable, and so I told the Magst to let the fine remain over him as a warning. I Have &c.

Hon: P Mitchell,

Sir,

13. June 1868,

I have to report for your information that Mr Martin Morrison, of Niagara, now fishing white fish gill nets in Lake Ontario, objects to paying a license, because as he states he fishes in American waters. ---

I believe this is strictly correct, he however lives in the Dominion of Canada, lands his fish in Niagara and sells them there, and he does not pass them through the Customs department.

I submit this matter for your decision. --- Mr Morrison, is the only person who objects to pay rent, and for the only reason assigned. --- Submitted for your decision. ---

Hon: P. Mitchell,

13. June 1868,

Sir,

I have the honor to report for your information, that I believe five dollars license, for this year, is sufficient to pay for white fish gill net fishing, and I have so arranged accordingly. --- Last winter was severe, and very hard and unprofitable to our gill net fishermen. --- This season promises to be more profitable than last, hence with small rent this year, our fishermen will be able to get on their legs again, by getting up new nets &c. &c.

This matter is submitted for your approval. ---

Hon: P. Mitchell. ---

13. June 1868,

Sir,

I have the honor to receive my reappointment from 1st day of July 1868, at the usual salary of \$200. per annum, and for which I thank you most kindly. I may however state that I feel disappointed. I expected promotion, and was led to believe that on the completion of Confederation, and the passing of the new fishing Act, my position would be bettered, and my salary raised. --- On reference to the Annual amount collected and paid into the dept by me last year, and what will be still paid in this year, my district may safely be now put down as self sustaining. --- and beside a vast improvement in the fisheries to warrant promotion. ---

Hon: P. Mitchell,

I Have &c. John W Kerr
